You can’t think of everything... but Life Profile can!

Using over 20 years of research into the most common reasons seniors experience falls, injuries, and rehospitalizations, our groundbreaking LIFE Profile assessment is a crucial tool in helping loved ones age safely and successfully at home.

- Analyzes hundreds of data points to determine exactly where care is needed
- Identifies how making small changes can greatly improve safety and well-being
- Gives families a blueprint to schedule, manage, and direct care activities based on specific, individual needs

Senior Helpers LIFE Profile helps families and loved ones work together to create a safe, comfortable environment to remain in the home with the specific assistance and support they need.

After completing a thorough review, Senior Helpers creates a customized care plan that becomes your blueprint to schedule, manage, and direct care activities for your loved one based on their individual needs. The care plan is also used to measure progress and further improve care, allowing your loved one to successfully age at home.

That’s Senior Care, Only Better.

I couldn’t ask for better help with my Medicare. Everything was explained and easy to understand, making my choice very simple and easy.” – Scott M.

Our local advisors simplify Medicare and coverage before Medicare by getting to know you, evaluating plan options, and helping you or a family member enroll in the right plan for your unique needs and budget.

Choose a local partner in Medicare and individual health plans. RetireMed has helped more than 50,000 people find the right health coverage. You can meet in person, by phone, or Zoom video meeting. Plus, our services and long client support go beyond enrollment and are always provided at no cost.

A Message from the Director of the Bluegrass Area Agency on Aging and Independent Living

The Bluegrass Area Agency on Aging & Independent Living (BGAAA&IL) is pleased to provide you with this new edition of the Pathways Guide for Older Adults in the Bluegrass Area. BGAAA&IL is proud to participate in the production of this valuable guide that is distributed throughout Anderson, Bourbon, Boyle, Clark, Estill, Fayette, Franklin, Garrard, Harrison, Jessamine, Lincoln, Madison, Mercer, Nicholas, Powell, Scott and Woodford Counties. It is a comprehensive resource containing reliable information on the wealth of services and resources available to assist older adults, adults with disabilities, their families and caregivers. It provides the information needed to give you “front door” access to find the necessary services and supports to meet an individual’s long-term care needs.

The BGAAA&IL is grateful to our community advertising partners who, through their support of the Pathways Guide, made it possible for us to produce this valuable resource at no cost to consumers. We hope you and your family find the information in this Resource Guide useful in meeting your needs. Many in the past decade have found it to be a valuable aid for caregiving and for long-term care planning.

Sincerely,

Celeste Robinson
Director

THERE’S NO PLACE LIKE HOME

Whether you are recovering from surgery, experiencing an illness, or living with a chronic disease, we can help.

Our specially trained nurses and therapists work with your physician to deliver care right where you need it – at home.

We provide care 24 hours a day, seven days a week. You may receive home health care upon discharge from a hospital or nursing facility, or even if you have not been hospitalized.

For more information, visit BaptistHealth.com/HomeCare or call 859.260.6569.

Counties served include: Fayette, Anderson, Bourbon, Boyle, Clark, Franklin, Garrard, Harrison, Jessamine, Madison, Mercer, Powell, Scott and Woodford.

About This Guide

This directory is the most comprehensive listing and explanation of providers and services who cater to the needs of mature adults. It is designed to work for YOU! It takes up little shelf space, yet ties together in an "at your fingertips" format all the services, programs, and products most needed by older adults. Information contained herein has been supplied by the organizations and facilities. While the information has been thoroughly cross-referenced and phone verified as of April, 2024, Senior Impact Publications, L.L.C. and the Bluegrass Area Agency on Aging and Independent Living assume no responsibility for omissions or errors. We welcome all updates and corrections.

This easy-to-use handbook of services for senior citizens is most helpful for:

- Medicare HMO member benefit
- Medicare Consumers
- Family Caregivers
- Physicians
- Medical Service Providers
- Eldercare Attorneys
- Financial Planners
- Human Resource Directors
- Home Health Care Nurses and Aides
- Nursing Home Personnel
- Ministers and Clergy
- Hospital Discharge Planners
- Caseworkers
- Medical Equipment Suppliers
- Managers of Retirement Housing
- Retailers Offering Products or Services Used Primarily by Senior Citizens
- Therapists

CAREGIVER TIP
Support groups can be good for your health!

Participation in support groups is one of the most effective strategies for dealing with the many challenges faced by relatives taking on the primary care of young children. To find a support group close to you, contact your local elementary school Family Resource Center, the LFUCG Aging Services Office, or the Kentucky Kin Care Project.

You might also want to check with either the Family Resource Center, or the Youth Service Center at the school your child attends. Many of these offer supportive help and guidance to grandparents and other relative caregivers of children.

2024/25 Edition
Pathways - Information for Older Adults
Payment Sources for Home-Based Services

Advice: Private pay for services is always an option. You can find agencies that provide services for a fee on pages (fill in pg #) of the Pathways guide. Some governmental funding sources can help but they often have income restrictions and limits and restrictions. Call or email the Aging and Disability Resource Center (ADRC) to explore all options. Pg. (fill in new pg #)

**Third Party (Government Funded) Sources**

Medicare ([www.medicare.gov](http://www.medicare.gov))
Medicaid ([https://www.chfs.ky.gov](https://www.chfs.ky.gov))
Older American’s Act Services ([https://www.bgaaail.org](https://www.bgaaail.org))
Veterans Administration ([www.va.gov](http://www.va.gov))

**Third Party (Private) Sources**

Private Health Insurance
Medigap or Medicare Supplemental Insurance (See pg. #)
Long Term Care Insurance
Managed Care Organizations
CHAMPUS (for retired military personnel)
Workers’ Compensation

**In Home and Facility Based Long Term Care**

**Home Health**
For individuals who need short-term medical care at home due to an illness or injury ([/agencies/dms/provider/Pages/hh.aspx](http://www.chfs.ky.gov/agencies/dms/provider/Pages/hh.aspx))

**Private Duty Nursing (PDN)** ([/agencies/dms/providers/Pages/PDN.aspx](http://www.chfs.ky.gov/agencies/dms/providers/Pages/PDN.aspx))
For individuals who need continuous skilled nursing due to a disease, illness, or injury.

**Nursing Facilities**
For individuals who require facility-based skilled nursing care or rehabilitation

**PACE** “Programs for All Inclusive Care of the Elderly” ([/agencies/dms/dca/Pages/pace.aspx](http://www.chfs.ky.gov/agencies/dms/dca/Pages/pace.aspx))
For individuals 55 or older who need nursing facility level of care but want to continue living at home. (See page 51)

**Kentucky Transitions** ([/agencies/dms/dca/Pages/kytransitions.aspx](http://www.chfs.ky.gov/agencies/dms/dca/Pages/kytransitions.aspx))
For individuals who wish to move out of a nursing home and into the community, Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) ([/agencies/dms/provider/Pages/iddfacility.aspx](http://www.chfs.ky.gov/agencies/dms/provider/Pages/iddfacility.aspx))

For individuals with Intellectual disabilities (ID) or related conditions for whom facility-based care is appropriate.

**Medicaid Waiver Programs**
The Medicaid Waiver programs fund in-home services for individuals as an alternative to receiving care in a facility. Depending on the waiver, services can include medical and nursing care, personal care, homemakers, adult day services, home-delivered meals medical supplies, home modifications for accessibility, and transportation to medical appointments.

Kentucky offers many different types of Medicaid Waiver programs. For more information call the Department of Medicaid services at (502) 564-5497 or 1-800-372-2973. To be screened for eligibility call the Aging and Disability Resource Center at 1-(866) 665-7921.
See page (current page is 52)

Tips on Hiring a Contractor

If you are a homeowner, it’s inevitable that at some point you will need to hire a home repair or remodeling contractor. Hiring a reliable and trustworthy contractor is one of the most important steps for your project. Better Business Bureau serving Central & Eastern Kentucky offers these tips to consider when hiring anybody to work in your home:

• Research. Search for a contractor’s Business Profile at BBB.org for free information on its history of complaints, read verified Customer Reviews, and see if it is an Accredited Business. BBB Accredited Businesses make a commitment to uphold BBB’s Accreditation standards.

• Ask for references. Ask the contractor for a list of recent local references you may contact. Ask the references about the services performed and their overall experience with the contractor and the quality of the work.

• Get multiple quotes. Shop around for at least three estimates. Make sure all bids consider the same set of criteria. Remember that the lowest bid may not necessarily be the best bid; if one bid is significantly lower than the others, the contractor may be cutting corners or may not understand your work requirements.

• Get it in writing. Always get estimates in writing and never let any work begin without a written and signed contract. Do not be pressured into signing an agreement before you are ready and make sure you read and understand everything before signing. The contract should include contact information, start and complete dates, a detailed description of the work to be done, any material costs, payment arrangements, warranty information and any verbal promises.

• Verify license and insurance. Always be sure that the company you decide to work with has the necessary licenses and insurance to work in your area. In Lexington, contractors are required to be registered through the LFUCG Contractors Registration Program. Check a contractor’s status by calling (859) 258-3070.

• Confirm building permits. Your contractor must have the correct permits before starting your project. They will usually obtain the permits, but you will probably pay for them. That should be detailed in your contract.

• Arrange a payment schedule. Never pay in full up front. Stagger your payments so your final payment is not due until the work is complete and you have fully inspected it. Do not pay cash; make sure your check is written to a company, not an individual. If you pay with a credit card, it may provide some recourse should the job not be completed as stated in the contract.

• Get a receipt. Request a receipt marked “Paid in Full” when the job is completed and your final payment made.

If you need help, contact:

Tips for Caregiving

☑ Schedule a visit if you have not done so recently.
☑ Assess your loved one’s situation. In what areas does he or she need help?
   • Is the refrigerator stocked with healthy, appropriate foods?
   • Are there piles of bills or unopened mail?
   • Do friends and neighbors regularly visit your loved one?
   • Is the house clean and well-kept?
   • Is your loved one maintaining a personal care routine?
☑ Put financial and legal documents in order:
   • Bank statements and tax returns
   • Social Security, Medicare, and other insurance cards
   • Advance directives, including living will & health care power of attorney
   • Funeral arrangements
   • Birth certificates
   • Durable power of attorney
   • Legal planning documents
   • Insurance policies
☐ Ask a friend or relative to check in on your loved one regularly.
☐ Save a few vacation or personal days and some money in case of a family emergency.
☐ Utilize local services and resources:
   • Home health agencies
   • Senior Centers
   • Adult Day Service Program
   • Homebound meal delivery
   • Senior transportation services
   • Friendly Visitor programs
• Geriatric Care Managers: After determining your loved one’s needs, a care manager will locate and manage community resources. Contact the National Association of Professional Geriatric Care Managers: www.caremanager.org or (520) 881-8008.
• National Family Caregiver Support Program: This program is designed to support caregivers and enhance quality of life through support groups, respite services, financial assistance, and other resources. Contact your local Area Agency on Aging at 1-866-665-7921.
☑ Develop a regular system of communication with your loved one.
☑ Take care of yourself. Recognize your limitations and be sure your needs are being met.
☑ Discuss needs with other family members and ask for help.
☑ Attend a support group or educational program in your area.

General Information & Referral, Community Outreach

An Area Agency on Aging and Independent Living (AAA&IL) is a public or non-profit agency designated by the state to address the needs and concerns of all older adults at the local level. An "AAA" is a generic term.

AAA’s were established under the Older Americans Act (OAA) in 1973 to respond to the needs of Americans aged 60 and over in every local community. The services available through AAA’s fall into five broad categories:

- Information and access services,
- Community-based services,
- In-home services,
- Housing, and
- Elder rights.

Within each category a range of programs is available.

—National Directory for Eldercare Information and Referral, USAging

AGE FRIENDLY LEXINGTON

Age Friendly Lexington supports the efforts of neighborhoods, towns, and cities to become great places for people of all ages. Age Friendly Lexington is a collaboration of volunteers and organizations working to make Lexington-Fayette County more livable for everyone at any age. Part of this effort is to certify businesses as Dementia Friendly. Look for this designation next to listings in the guide to find out which businesses are designated as Dementia Freindly!
# Primary Information and Referral

Bluegrass Area Agency on Aging & Independent Living  
1-866-665-7921 or (859) 266-1116  
699 Perimeter Dr., Lexington 40517  
www.bggaaail.org

The Area Agency on Aging is a central point for information about Senior Centers, Adult Day Care, Family Caregiver Support Program, and Homecare services in the 17 counties that comprise the Bluegrass Area Development District. Bluegrass AAA&IL also operates programs serving grandparent caregivers and persons eligible for Participant Directed Services (PDS). PDS is a Medicaid waiver program that allows individuals to choose who will provide services as well as how, when and where services will be provided. The Bluegrass AAA&IL can provide information about senior services throughout the state.

The Department of Aging and Independent Living
(502) 564-6930
CABINET FOR HEALTH AND FAMILY SERVICES
275 E. MAIN ST., FLOOR 3 EE, FRANKFORT 40621
https://chfs.ky.gov/agencies/dal/Pages/default.aspx
Office designated as the State Unit on Aging charged with administering the Older Americans Act programs through the Area Agencies on Aging in Kentucky. Administers the Homecare, Personal Care Attendant and Adult Day Care. Call for information on programs in other states.

Eldercare Locator
1-800-677-1116
https://eldercare.acl.gov/Public/Index.aspx
Dial this number for the names and phone numbers of the Area Agency on Aging within a desirable location anywhere in the U.S. Service is available Mon. through Fri., 9:00 a.m. to 8:00 p.m. Be prepared with the county, city, or zip code and a brief description of the problem.

Jewish Family Services (JFS)
(859) 269-8244
124 N. ASHLAND AVE., LEXINGTON 40502
www.jewishlexington.org
Social services are primarily focused on the Central Kentucky Jewish Community. Assessments, case management, advocacy, information and referrals to community resources and family life education.

Lexington Senior Center
(859) 278-6072
195 LIFE LN., LEXINGTON 40502
www.lexingtonky.gov/lexington-senior-center
Information clearinghouse for older persons and their families. Help with health care, housing, financial assistance, advanced care planning, recreational activities, etc. Recreational, social, and educational activities at minimal to no cost. See Senior Centers on Page 20 for other counties.

Division of Aging and Disability Services
(859) 278-6072
LEXINGTON-FAYETTE URBAN-COUNTY GOVERNMENT
200 E. MAIN ST., LEXINGTON 40507
www.lexingtonky.gov/departments/aging-services
Identifies, assesses, and coordinates service needs of seniors and individuals with disabilities, including any barriers to their ability to successfully age in place. Also participates in community activities in advocating for rights, policies, and funding that can enhance the lives of seniors and individuals with disabilities in Fayette Co.

Office of Consumer Protection
(502) 696-5389 or 1-888-432-9257
OFFICE OF THE ATTORNEY GENERAL,
1024 CAPITAL CENTER DR., STE. 200, FRANKFORT 40601
https://ag.ky.gov/about/branches/OCP
Consumer education programs, enforces the Consumer Protection Act and other consumer laws, and reviews consumer complaints. Submit complaints in writing.

Pride Community Svcs. Organization
(859) 253-3233
www.pcsoky.org
Operates LGBTQ+ community center with computer lab, market, education, and training opportunities and events. Referrals to LGBTQ+ affirming organizations, businesses, and services. Senior Independent People’s (SIP) group centered around LGBTQ+ people 50+ and their allies hosts free inter-generational dinner every month at the Pride Center.

United Way 2-1-1 Information and Referral Call Center
1-866-362-6211 or Dial 2-1-1
100 MIDLAND AVE., STE. 300, LEXINGTON 40508
www.uwbg.org
Easy to remember three-digit phone number that connects callers with important services like food, shelter, and counseling. Dial 2-1-1 and you’ll be connected to trained specialists who can help with food, shelter, employment and other basic needs; support for children, families and seniors; healthcare access; volunteer opportunities; free tax preparation; or when you just don’t know who to call. It’s free and confidential. For help, call United Way 2-1-1. (This is a phone service; no walk-ins please.)

University of Kentucky Sanders-Brown Center on Aging
(859) 323-5550
2199 N. Harrodsburg Rd., LEXINGTON 40504
www.uky.edu/coa
Improving the health of older adults in Kentucky through research opportunities to understand the aging process and age-related brain diseases. Bringing educational programs, volunteer research opportunities, and outreach throughout the Commonwealth.
Senior Activity Centers

Active adults enjoy social, educational and recreational opportunities, and health promotion classes at these community focal points. A nutritionally balanced noon meal is provided. Reservations required one day in advance for meals and donations are accepted.

Nutrition Site
The same nutritious noon time meal served at the Senior Centers is provided at some senior housing locations. The Older Americans Act provides funding for this meal for persons 60 and older (reservations are required in advance/donation accepted).

MEALS PROGRAM

Elder Nutrition Program — Congregate Meals: Persons age 60+ and the spouse of that person, regardless of age, are eligible to participate in congregate nutrition services. Donations accepted; suggested amount varies by center. Meals served at these locations (reservations requested):

Available in your county clerk's office. You must have a disability form from your physician.

Handicap Parking Permit (859) 253-3344, option 1
FAYETTE COUNTY CLERK
162 EAST MAIN ST., LEXINGTON 40507
www.fayettecountyclerk.com/web/vehicles/disabled.htm (forms are also available on this web page)
Permits and/or license plates are available for anyone who has lost the use of a leg or arm, is blind, or has a severe respiratory ailment. A physician must sign the application form. The permit must be displayed in your car or in the car in which you are riding. You may then park in a regular parking space for an extra two hours or in a handicapped parking space. All handicap placards are free although it is $21.00 for a license plate.

Routine Ambulance Transport
Some people need professional assistance in getting to surgical or therapy sessions, chemo treatments, etc. Private ambulance services are available to meet this need. Always check with your physician/hospital for service.

Independent Ambulance Services
Georgetown Ambulance Services ... (502) 863-7841
Helping Hands Transportation ... (859) 397-0096
Scott County Ambulance ... (859) 863-7841
Woodford County Emergency Med. ... (859) 873-8161
Woodford County Ambulance ... (859) 873-8057

Most Services Offer:
- 24 hour/7 day service
- Family member or friend can ride along
- Direct billing for Medicare/Medicaid and secondary insurance
- Stretcher service. Not all are wheelchair equipped.

---

22 Pathways - Information for Older Adults
Average Costs (base)
- Rates are usually quoted base cost plus additional charge per mile. Ask for exact quotes for your needs. Ask for all available discounts.
- Most services accept Medicare, Medicaid and other insurance assignment.
- Some services are better than others in explaining and pursuing Medicare covered charges. Know your rights and always shop for best price and terms from at least two services.
- Services will bill Medicare, Medicaid, secondary insurance carriers.

Most will bill patients for charges not covered by Medicare, Medicaid and secondary insurance.

Medicare’s Definition of Stretcher Acceptable Patient
- Cannot sit up in a wheelchair safely
- Cannot walk with assistance
- Must be bed confined 18 hrs. before and after transport

Medicare Covers:
- Stretcher service to hospital and some out-patient hospital procedures
- Discharge to home or skilled nursing center
- Transport only up to 25 miles

Medicare Does Not Cover:
- Any wheelchair transport
- Transport to doctor’s office
- Transfer from one hospital to another if needed service is available at existing hospital

Medicaid Covers:
- Same services as Medicare plus wheelchair transport with doctor’s prior authorization
- Stretcher service to doctor’s office with doctor’s authorization

Doctor Visit Checklist:
Be Prepared!

It’s common for most people to forget what they want to ask their doctor, or they think their doctor is too busy to spend extra time with them. Remember, this is scheduled time with the doctor. And you’re entitled to answers to your questions. In order to make the most of your visit to the doctor, it’s important to be prepared. Use this helpful checklist to prepare for your next doctor visit.

Prior to a Doctor Visit (take this information with you):
1. Write down your questions.
2. Write down any changes in your symptoms or condition.
3. Take a copy of your prescription formulary list – you can find it in your insurance company enrollment packet or at your insurance carrier’s website.
4. Write down alternative treatments or medications that you’d like to discuss with your physician.
5. Make a list of the current medications you're taking (over the counter and prescriptions).
6. Other:

During Your Doctor Visit:
1. If your doctor prescribes a name brand medication, ask about a generic equivalent. Doing so may help you save on out-of-pocket costs.
2. Ask if the prescribed medication is on your formulary list (give your doctor a copy). Using medications on the list can help you save on out-of-pocket costs. Visit your insurance carrier’s website to print out a copy of the formulary list.
3. Ask your doctor for samples of the medication he/she prescribed. This way you can try the medication for a few days to see if it’s effective for you. If it is, then you can fill your doctor’s prescription; if not, it hasn’t cost you anything.
4. Be sure to review the list of symptoms, questions and medications that you’ve prepared.
5. When appropriate, talk to your doctor about other treatment options. Make sure you're well informed. Discuss which treatment would be most beneficial and cost-effective for you.
6. Other:
Complete this form for easy reference if you must call for help. Post in a place obvious to friends, family and emergency personnel.

Living Trusts vs. Wills

The Federal Government allows individuals to pass all or a portion of their estate to heirs tax-free. These amounts change, so check with your attorney or financial advisor for current amounts. This can be accomplished with either a professionally prepared will or a living trust - depending on the circumstances.

A traditional will names an individual to administer your estate after your death and outlines how you want your assets distributed. A will must be admitted to "probate," which is a legal proceeding that requires documents to be filed in court. The time required for probate can be shorter or longer depending on the assets and the persons involved.

Living trusts can be an effective estate planning tool but are not needed by everyone. Funding a trust means transferring assets such as your home, car or bank accounts into the trust from your own name. Assets then are owned by the trust - not yourself. You or someone you designate then administers the trust as the trustee. If you name yourself as trustee, you still retain total control of those assets in the trust. You can administer your own trust, and upon your death or incapacitation, a named successor trustee will assume management. This avoids probate and/or the need to apply for guardianship or conservatorship. There are both changeable and non-changeable (revocable and non-revocable) trusts, each of which have differing effects on taxes and government benefits.

Any tax deferred accounts, such as an IRA or 401(k), should not be placed in trust. The IRS considers this a taxable distribution and will charge you taxes and a 10% penalty. Only an attorney can tell you what is best for your estate plan.

Considerations:

- **Living Trust**
  - Can distribute my estate according to my wishes.
  - Allows for effective tax planning strategies with the maximum level of control.
  - Generally, avoid probate and/or attorney fees associated with probate.
  - Probate is a public proceeding. Files are open to the public. Will can be challenged by heirs who are legally entitled to notice of distribution.
  - Has no cut-off for creditors to file claims.
  - Helps transfer real estate easily, especially for real estate held in different states.
  - A named successor trustee assumes management upon your incapacitation without the need to petition the court to name a conservator to act for you.
  - If your life insurance policy is owned by the trust, and your estate is worth more than the allowable limit, the trust will have to pay taxes on the proceeds.
  - Fees associated with drafting, funding, and setting up the trust can vary. Generally, trusts are more expensive to set up initially than a will.
  - Will not help with asset preservation or Medicaid planning.

- **Simple Will**
  - Can effectively accomplish the same with joint ownership and designation within a will.
  - There are many strategies which can be used to reduce or eliminate federal and state taxes with or without a living trust.
  - You can hold property in joint names or Payable on Death accounts. Assets with named beneficiaries also avoid probate.
  - Drafting a will can depend on the complexity of your estate. Trust administration can also be expensive, slow, and complex. Very few people actually go to court to read files.
  - No creditor claims can be filed after six months in Kentucky.
  - If you own out-of-state property, you may have to open a probate in each state to transfer the asset. Your will must be validated by the probate court in each state in which you own property.
  - Provides a safeguard against a dishonest heir or trustee. Probate court requires strict accounting and closely supervises estate administration.

www.fcba.com

Attorney referral. There are no special discounts associated with this service, so be sure to discuss fees when you first contact the attorney. 8:30 A.M. – 4:30 P.M.

■ TERMS
Beneficiary Designation
Some assets (life insurance, 401K, IRAs) allow the owner to designate a person (or entity, including a trust or a charity) to whom the assets will automatically pass upon the owner’s death. Assets that have a named beneficiary are NOT subject to the provisions of a will or probate.

Estate Tax
Tax applied by Federal Government to estates over the applicable monetary threshold.

Inheritance Tax
Tax applied by State of Kentucky on the right to receive property. Imposed based on family relationship to decedent.

Irrevocable Trust
A trust that cannot be revoked or changed by the person setting it up. These trusts can be used for tax planning or for Medicaid eligibility.

Joint Tenancy
Two or more people own or hold title to an asset, real or personal property, with right of survivorship. These assets will pass automatically to the other owner (or owners) upon the death of one owner. These assets are not generally subject to the provisions of a will or probate until the death of the last joint tenant. (There are pros and cons of joint tenancy which should be discussed with an attorney).

Living Trust (or Revocable Trust)
A trust you create during your lifetime. Assets held in the trust can be used by you as you direct as long as you are alive. Someone else can manage the assets for you when you cannot. Assets must be transferred (retitled) into the trust. Provides no asset protection from Medicaid requirements and is subject to estate and inheritance taxes.

Medicaid Trust
A legal document that protects assets if you are confined to a nursing home and will apply for Medicaid.

Payable Upon Death (POD) or Transfer Upon Death (TOD)
A beneficiary designation applied to a banking or investment account transferring the account to the named beneficiaries outside the probate process. Subject to estate and inheritance taxes.
Probate
Court proceeding that arranges for resolution of legal and financial matters of the deceased person. Title and asset changes are made according to the wishes in a valid will, or according to state law in the absence of a will. Probate takes an average of six to 24 months. Probate documents are public records. Probate will also require the payment of filing fees and court costs.

Unlimited Marital Deduction
No estate taxes are imposed on surviving spouse regardless of size of estate. However, estate tax can be imposed at the time of death of the surviving spouse depending on the size of the estate.

Will
A legal document which declares how you want assets distributed after your death. Appoints a personal representative (or executor/executrix) to execute those wishes.

TERMS & INFORMATION RELATING TO THE CARE OF ANOTHER PERSON

Advance Directives
Allows you to express your wishes in advance. Lets physicians and others know what medical treatments are acceptable in the event of terminal illness. Living Will directives support the Durable Power of Attorney for Health Care. Advance planning is extremely important for these complex decisions. Consult with your attorney.

Curatorship
Created voluntarily at the request of a physically infirm, but competent, adult to place his property or person under court supervised management.

Durable General Power of Attorney
Gives power to another to make legal or financial decisions such as check cashing, banking needs, filling out tax forms, etc. if you are unable to do so. The powers can be narrow or broad. You should not use a form to assign powers of attorney. Such forms are often flawed and may not be legally binding. Use an attorney, call Legal Aid of the Bluegrass, (859) 233-4556, or visit www.lablaw.org.

Durable Power of Attorney for Health Care
Gives power to another to make medical and personal decisions if you are unable to do so. Its provisions are broader than a Living Will, which is limited to life and death medical care. They are important companion documents.

Guardianship and Conservatorship
Appointed by the court only after a jury trial has been held to determine mental competency based on medical evidence by a physician and a psychiatrist, and testimony of a social worker. The person whose competency is in question is called the “Respondent.” If the Respondent is found to be incompetent or partially incompetent, a court may appoint a guardian or a limited guardian and a conservator. Guardians are principally charged with handling the personal needs of the Respondent, while the Conservator handles the finances. The effect of a finding of incompetency is the removal of all or part of the ward’s adult rights. (The law refers to this a being “disabled.”)

Living Will
See Advance Directives.

Patient’s Rights
Should be prominently posted in the facility. Entitles residents to the highest quality of care with dignity, respect, full information about fees, charges and the right to privacy.

Representative Payee
Person designated by the Social Security or Veterans’ Administration to receive benefit checks on behalf of another person. For example, a check for John Smith is paid to Lucy Jones. (Lucy must be able to provide a full accounting of her use of the money on behalf of John if requested to do so). The designation may be altered by requesting a change at the SSA or VA office.

Springing Power of Attorney
A clause in a durable power of attorney that permits the attorney-in-fact or agent to act “only if” certain events have taken place.

TAXES
Many tax returns are filed by, or on behalf of, individuals who are not required to file. If earned income is below a certain level, single individuals and couples age 65+ may not have to file. Some exceptions apply. Call the IRS at 1-800-829-1040.

AARP Foundation Tax Aid
www.aarp.org/money/taxes/aarp_taxaide/locations.html
Free tax advice, Feb - April.

Homestead Exemption - Property Valuation Administrator (859) 246-2722
101 E. Vine St., Suite 600, Lexington 40507
http://www.fayettepwa.com
Available to homeowners age 65+ or disabled. Applicants must own and maintain the home as their primary residence and cannot have a similar exemption on any other property. The exemption amount changes annually. Applicants must complete a one-page application and provide proof of eligibility. Visit the website above to learn more about what documents can prove eligibility and to print the application. You may call the PVA Office to request an application or more information.

Internal Revenue Service 1-800-829-1040 or 2-1-1
Tax Counseling for the Elderly (TCE)
Volunteer Income Tax Assistance (VITA)
Tax counseling services (late January - April 15) provided in Lexington and surrounding counties. Volunteers provide free tax help to seniors and low- to moderate-income people. Call for the site nearest you. Information on TCE and VITA tax preparation sites are available.

www.lfuchrc.org
Handles complaints of discrimination in employment, housing and public accommodations. Individuals age 40+ are covered through the age discrimination in employment laws of Lexington-Fayette Urban County, the Commonwealth of Kentucky and the United States government. Acts in conjunction with other local agencies and leaders in order to develop harmonious inter-group and inter-racial relations. Acts as a conciliator in controversies arising in these areas. Provides training in a variety of civil and human rights issues such as cultural diversity, disability, fair housing and sexual harassment. Complaints can be filed on the web.

- For counties outside of Fayette, please contact:
  National Do Not Call Registry  1-888-382-1222
  www.donotcall.gov
You can register your home or mobile phone for free. Your registration will be effective for five years. You must call from the phone number you wish to register. To file a complaint, call or visit the website. You must know the name of the company or phone number and date of call. Some callers are exempt from the law.

How do I get my medals?
If you are due medals for acts of honor and bravery, you can have them issued by sending the request on Standard Form 180, Request Pertaining to Military Records. If you can't get a copy of Form 180, type or handwrite a request including your full name, signature, branch of service, service ID or Social Security number, dates of service, and a copy of your discharge papers.

All services write to: National Personnel Records Center, 9700 Page Blvd., St. Louis, MO 63132-5200

Or call for all services, (314) 801-0800
Employment

Today’s job market respects experience. Companies are hiring older workers as cost-effective solutions to acquiring talent. Studies show that older workers can improve a company’s productivity and reduce personnel costs. Older workers account for fewer on-the-job injuries, have excellent attendance records and offer dependability and maturity.

Wildwood Music Therapy  (859) 212-3260
www.wildwoodmusictherapy.com

Reverse Mortgage Loans
Reverse mortgage loans enable persons age 62+ to get cash (a loan) that is not paid back until you move out of your home, no matter how long that turns out to be. This loan relies only on home equity, so advanced age, low income, and even bad credit (except debt to the Federal Government), does not prevent this loan from going through.

The most popular form of Reverse Mortgage is the Home Equity Conversion Mortgage (HECM) which is the one described here. The HECM loan is done through private lenders who compete for your business, but these loans are backed 100% by the Federal Government through the Department of Housing and Urban Development (HUD).

How Much Can I Borrow?
The following chart the gives examples of the amount of money available at an interest rate of 3.97%. The interest rate in the discussion here is variable monthly (a slightly higher, variable yearly rate is also offered); the lower the interest rate, the more money that will be available to the homeowner.

<table>
<thead>
<tr>
<th>Maximum Claim Amount</th>
<th>Tenure Monthly Payment (by age)</th>
<th>65</th>
<th>75</th>
<th>85</th>
</tr>
</thead>

<tr>
<td>140,000</td>
</tr>
<tr>
<td>85,000</td>
</tr>
</tbody>
</table>

* The Maximum Claim Amount is either the FHA lending limit in the County, or your home value, whichever is less.

There are several choices for taking the money available; a line of credit, a monthly payment for life ("tenure") for a specified period, or any combination of these methods. Notice that the older you are, the greater the amount available.
PROS AND CONS OF REVERSE MORTGAGES

Pros Include:
- A free educational session conducted by a trained counselor is required before you enroll with a lender.
- A "low" interest rate applies and accumulates only on the funds borrowed so far.
- No monthly mortgage payments.
- No repayment until you move; for co-owners, no repayment until you both move.
- Existing mortgages will be paid off with Reverse Mortgage Funds (as long as there are enough proceeds to do so).
- If you are receiving public benefits (such as SSI or Food Stamps), Reverse Mortgage proceeds can be managed in a way that does not interfere with benefits.

Cons Include:
- High start-up costs. While these are not paid out of pocket, there is an immediate debt on the home. So this loan is costly if you move out of the home soon.

Funeral Preplanning

Funeral preplanning is not a favorite topic, but is a straightforward process that is absolutely essential in total estate planning. There are over 50 decisions to be made at the time of death. Decisions need to be made about funeral director’s services, length of visitation, type and location(s) of religious services, securing the clergy, cards, card verses and writing and placement of a newspaper obituary. Choices of burial vault, casket, cemetery plot, cemetery marker, urn, embalming and restorative or cosmetic services must also be selected. Disposition of the physical body involves decisions about organ and/or body donation, burial or cremation.

The average funeral cost is $6,000. Average cemetery costs range from $1,800 to $5,000. By preplanning, you determine what your costs will be by making decisions about plot, vault, marker, interment or mausoleum space.

Both prepaid funeral and cemetery contracts should be made to ensure peace of mind and the honoring of one’s wishes. Most certainly, a burial insurance plan should be pre-purchased before a family member begins to spend down assets in a skilled nursing center.

There are several prefunding options available including an insurance policy that guarantees that all costs of the services and funeral items that you purchase will be paid for at the time of death. All policies have built-in inflation clauses to cover the costs of those items at the time of death. Check with your funeral director on what items are guaranteed and what is the best plan for you.

DON’T FORGET
Give a signed copy of your Living Will to your physician and executor, guardian or trusted family member.
POINTS TO CONSIDER

☑ If applicable, notify an attorney to file probate.

☑ Make at least 10 copies of the death certificate and obituary notice.

☑ If your beloved was a veteran, notify the Veterans Administration and inquire if any benefits are due.

☑ Notify all insurance companies and send them certified copies of the death certificate.

☑ Notify your nearest Social Security office that the beneficiary is deceased. You may need a copy of the birth, marriage and/or death certificate.

☑ It is the surviving family who either writes or provides information for the obituary notice. In your estate planning, consider how you or your loved one would like to be remembered. Talk about how the notice should read...in advance of a stressful time.

☑ Transfer or cancel all bank accounts, credit cards, etc.

Legal Health Care/Advance Directives

See also Legal Advocacy and Important Documents.

Living Will (See pages 41–42 for form). A Living Will tells doctors what to do when you are too sick to communicate. It can indicate when medical treatment should stop, or whether you want passive feeding to be withdrawn. The directives are limited only to care which artificially or technologically postpones death—not comfort care. The Living Will must be signed by you, witnessed by a notary or two non-related adults, excluding your physician and nursing home advisor. At the time of determination, your attending and one additional physician must certify terminal condition or permanently unconscious state.

Of Special Note

☑ If you want food and water withheld if you are in a permanently unconscious state, you must specifically indicate this by both checking a box and initialing.

☑ Health care providers are required to inform you of your right to refuse or accept medical treatment. Always ask up front what the provider’s policy is in honoring advance directives.

☑ A Living Will applies only to situations of terminal illness and permanent unconsciousness—not to those who have Alzheimer’s, have had strokes, degenerative disorders or conditions that are not immediately life threatening.

☑ A Living Will supercedes a Designation of Health Care Surrogate with respect to life sustaining care decisions.

☑ An oral request to your physician, family member or health care worker revokes the signed document.

Designation of Health Care Surrogate

Everyone should have one! A Designation of Health Care Surrogate designates a person to make medical decisions for you in situations that your Living Will did not anticipate such as mental or physical incompetency.

ADDENDUM FORMS

Honor My Decisions – a digital advance care planning tool. There may come a time through illness or accident when you cannot tell doctors what medical care you want and do not want. An advanced care plan (ACP) is created when you discuss and legally document your future medical decisions. Honor My Decisions is online software that makes it easy to you to create and share a digital ACP. Visit honormydecisions.com to learn more. To get your no cost ACP reach contact Celeste Robinson at crobinson@bgadd.org or http://bgaaai.com/

More information on Honor My Decisions can be found on pages 43-44.

LIVING WILL DIRECTIVE INSTRUCTIONS

This declaration must be signed in the presence of two witnesses or a notary public. The following persons cannot be a witness to the declaration:

a) A blood relative who would be a beneficiary of the declarant; or
b) A beneficiary of the declarant under descent and distribution statutes of the Commonwealth; or
c) An employee of a health care facility in which the declarant is a patient; or
d) An attending physician of the declarant; or
e) Any person directly financially responsible for the declarant’s health care.
State of Kentucky
Living Will Directive

My wishes regarding life-prolonging treatment and artificially provided nutrition and hydration to be provided to me if I no longer have decisional capacity, have a terminal condition, or become permanently unconscious have been indicated by checking and initialing the appropriate lines below. By checking and initialing the appropriate lines, I specifically:

Designate ____________________________ as my health care surrogate(s) to make any health care decisions for me in accordance with this directive when I no longer have decisional capacity. If ____________________________ refuses or is not able to act for me, I designate ____________________________ as my health care surrogate(s).

Any prior designation is revoked.

If I do not designate a surrogate, the following are my directions to my attending physician. If I have designated a surrogate, my surrogate shall comply with my wishes as indicated below:

Direct that treatment be withheld or withdrawn, and that I be permitted to die naturally with only the administration of medication or the performance of any medical treatment deemed necessary to alleviate pain.

DO NOT authorize that life-prolonging treatment be withheld or withdrawn.

Authorize the withholding or withdrawal of artificially provided food, water, or other artificially provided nourishment or fluids.

DO NOT authorize the withholding or withdrawal of artificially provided food, water, or other artificially provided nourishment or fluids.

Authorize my surrogate, designated above, to withhold or withdraw artificially provided nourishment or fluids, or other treatment if the surrogate determines that withholding or withdrawing is in my best interest; but I do not mandate that withholding or withdrawing.

Authorize the giving of all or any part of my body upon death for any purpose specified in KRS 311.1929.

DO NOT authorize the giving of all or any part of my body upon death.

In the absence of my ability to give directions regarding the use of life-prolonging treatment and artificially provided nutrition and hydration, it is my intention that this directive shall be honored by my attending physician, my family, and any surrogate designated pursuant to this directive as the final expression of my legal right to refuse medical or surgical treatment and I accept the consequences of the refusal.
If I have been diagnosed as pregnant and that diagnosis is known to my attending physician, this directive shall have no force or effect during the course of my pregnancy.

I understand the full import of this directive and I am emotionally and mentally competent to make this directive.

Signed this _______ day of ________________, 20_____.

DIGITAL ADVANCE CARE PLANNING

We make it easy for you to make and share informed decisions about your future health care and ensure your comprehensive and legal digital advance care plan can be found and honored when it is needed.

There may come a time through illness or an accident when you cannot tell doctors what medical care you do and do not want. An advance care plan (ACP) is created when you discuss and legally document your future medical decisions.

These decisions may include someone to make medical decisions for you when you cannot make them for yourself (healthcare decision-maker). They may also include what medical treatments you do and do not want at the end of your life (living will).

Without an ACP, doctors and the people who care about you will not know your wishes for your medical care. Your healthcare team may provide uncomfortable, invasive, and expensive medical care at the end of your life that you may not want.

Family members may disagree about what care you should receive and for how long. Your loved ones may fight over what they believe you want—this may cause friction in your family at an already stressful time.

Honor My Decisions is online software that makes it easy for you to create and share a digital ACP. It helps you securely record and share your decisions, so they can be honored by your doctors and loved ones.

honormydecisions.com
Have an activation code? It's easy to get started!

1. On a computer that is connected to the internet, go to: https://app.honormydecisions.com

2. Click the green "Enter it now" button.

3. Follow the directions on the next two screens to enter your code and some basic information about yourself to create your account (including your date of birth and your name).

YOUR COMPREHENSIVE ACP INCLUDES:

- Emergency Contacts
- Values & Priorities
- Video Living Will
- Healthcare Decision-Maker
- Treatment Preferences
- Advance Directives (covers all states)

ABOUT HONOR MY DECISIONS

We are a healthcare technology company that has been providing cloud-based enterprise ACP software, education, and training to large healthcare systems, medical practices, health plans, and employers since 2015.

Protection Against Scam Artists:
Helpful Numbers: 45
Moving Your Elder in With You: 51
Dementia Checklist: 54

---

**Caregiver’s Bill of Rights**

Caregivers have the right to:

- Receive sufficient training in care giving skills along with accurate, understandable information about the condition and needs of the care recipient.
- Appreciation and emotional support for their decision to accept the challenge of providing care.
- Protect their assets and financial future without severing their relationship with the care receiver.
- Respite care during emergencies and in order to care for their own health, spirit, and relationships.
- Expect all family members, both men and women, to participate in the care for aging relatives.
- Provide care at home as long as physically, financially and emotionally feasible; however, when it is no longer feasible caregivers have the obligation to explore other alternatives, such as a residential care facility.
- Temporarily alter their premises as necessary to provide safe and livable housing for care receivers.
- Accessible and culturally appropriate services to aid in caring for aging care receivers.
- Expect professionals, within their area of specialization, to recognize the importance of palliative (cure without curing) care and to be knowledgeable about concerns and options related to older people and caregivers.
- A sensitive, supportive response by employers in dealing with the unexpected or severe care needs.

Lexington Humane Society (859) 233-0044
1600 OLD FRANKFORT PIKE, LEXINGTON 40504
www.lexingtonhumane society.org

BIRTHDAY AND ANNIVERSARY GREETINGS

Greetings from the White House
OFFICE OF THE PRESIDENT, WHITE HOUSE, RM. 39,
1600 PENNSYLVANIA AVE., WASHINGTON, D.C. 20502-0039
www.whitehouse.gov/contact

The President sends a greeting to those celebrating special birthdays, anniversaries, retirements and more. Complete request form online well in advance. Requests should include person’s name(s), address, age and appropriate dates.

The Today Show (202) 664-4602
For persons 100+, send photograph, name, address, birth date and short description about the person at least three months in advance. Anniversaries are also celebrated. Include name, address and phone number of person submitting the information.

BEREAVEMENT/WIDOW SUPPORT

Here are some thoughts to help you cope with the death of a loved one...

- Give yourself permission to grieve and talk about your loss, your love, happy times and memories.

- Recognize that other people care but might be uncomfortable and don’t know what to say to you. Be assertive and help them remember the good times they too shared with your loved one.

- Ask for and accept help. Recognize that anger, sadness, loneliness and fear are okay feelings. Your friends and family want to help, but you must let them.

- Use this time of change to rid yourself of everything in your life that doesn’t work for you. Don’t do anything out of a sense of obligation if it does not feel good to you.

(Continued on Page 50)
Be very cautious about major financial and lifestyle changes. Many experts advise waiting at least a year before selling your house.

Check with your local funeral director, place of worship or a hospice organization in your area for a support group that will let you share your feelings and problems with those who share your concerns.

**Geriatric Assessment**

Many older people experience multiple medical problems, frequent falls, memory and functional problems. Outpatient evaluations help determine the strengths of the patient as well as challenges so that resources can be identified and used to promote as much independence, safety, and lifestyle satisfaction as possible. Upon completion of assessment, a coordinated plan of intervention is provided. Medicare may cover a portion of the costs.

**An Assessment Generally Includes:**
- Examination of prior medical records
- A complete physical
- Family involvement
- Multi-disciplinary evaluations

**Multi-disciplinary Evaluations Done by:**

**Geriatric Care Managers**
Licensed professionals who assist with health issues, transitions to appropriate levels of care, and obtaining services and referrals.

**Geriatric Social Workers**
Professionals aid in family counseling, and the identification and referral to available community resources such as home care, respite and transportation. Care planning and referral to other living arrangements.

---

**Bluegrass Grief Care**
1-855-392-0812
www.bgcarenav.org/grief
Bluegrass Grief Care is a unique counseling service of Bluegrass Care Navigators.

**United Way 2-1-1 Information and Referral Call Center**
(859) 233-4460 or 2-1-1
www.uwbg.org
Bereavement services for family and friends.

**Geropsychiatrists**
Physicians who are specialists in the psychological needs of older adults.

**Geriatric Medical Specialists**
Specialists addressing unique problems of the elderly including memory loss, incontinence and falling.

**Related Health Care and Prevention Professionals**
Physical therapists, nutritional and occupational therapists and counselors who offer specific disease support and diagnostic tests including x-rays, and vision and hearing evaluations.

**Indicators That Are Especially Appropriate for Referrals:**
- Functional/Activities of Daily Living impairment
- Caregiver/family stress
- Confusion/memory impairment
- Depression, loneliness
- History of frequent falls, marked weakness
- Malnutrition or eating problems, incontinence
- Repetitive emergency room visits/hospital admissions
If you are considering having your elderly parent or relative move into your home, you are not alone. According to Business Week, 22 percent of seniors are expecting to move in with their kids and 54 percent of baby boomers are expecting their parents to move in with them.

When you consider all the lifestyle adjustments, role changes and changes in relationships that will ultimately occur by having your elder move in with you, the prospect may seem daunting. So, before you make a quick decision, it is important to look at all the issues facing everyone involved.

Emotional Issues: In order for this new arrangement to work, you and your elder must examine your relationships with each other. Even if you are blessed with loving and caring relationships, you must determine if you can live together. By honestly answering the following questions, you will be on your way to determining if you should consider the move.
- Have you had a relationship that has been open and honest?
- Have you been able to settle past differences?
- Are there any unresolved issues?

Living Arrangements: After you determine that you are emotionally ready to make the move, you must examine the living arrangements.
- Is there enough room in your home for everyone to live comfortably?
- Do any minor or major changes need to be made to accommodate any disabilities or mobility problems your parent or relative may have?
- Have you reviewed the home for safety traps and potential problems?
- Are you taking into account all privacy issues?
- What, if any, furniture will your relative bring with him or her?
- If your elder has Alzheimer’s Disease or another form of dementia, will wandering be a problem? Should doors and windows always be secured?
- Can you identify “Danger Zones” that should be restricted?
- Can you identify “Safe Zones” where your elder is free to wander and explore?
- Are there areas of the home where family members can separate themselves from the stresses of caregiving?

Relationship Changes: Role changes may be one of the hardest factors to deal with.
- Are you prepared for role reversals that may occur? For example, your elder may no longer feel like the “parent.”
- Are you prepared to make rules that may not always be warmly received by your elder?

Financial Caregiving: As you take on more responsibility for your elder’s well-being, you may find yourself managing her financial affairs. This is a doubly challenging responsibility since it presents the additional burden of spending time writing out bills, balancing accounts and managing investments. It also may require you to delve into very private matters that parents and relatives rarely share with their children.
- Have you considered automatic payment of recurring bills?
- Do all siblings understand and participate in the financial matters?
- Have you researched low-cost or free assistance services?
- Do you regularly meet with other family members to agree on new expenditures or to keep them apprised of accounts?
- Have you discussed responsibility for out-of-pocket expenses with your siblings and your elder?

Assistance: Another important issue to resolve is whether your elder will need assistance during the day. This is especially important if the rest of your family works or goes to school outside the home.
- If assistance is required, what arrangements can be made?
- If your parent requires no daily assistance, will you be able to take off from work to take him to appointments or care for her when she is ill?

Emotional Space: The biggest complaints people have when they take on this responsibility is that they have no time: they’re exhausted and they do not get enough rest. This is especially true for those who care for parents or relatives with special needs such as those with Alzheimer’s Disease or other dementia.

Family Consent/Approval
- Have you discussed issues regarding caring for your elder with other family members?
- Have you discussed the move with your siblings and other relatives of your elder?
Family Support Services/Mental Health Counseling

Ampersand Support Line (859) 253-2615 (859) 253-2511
P.O. Box 1603, Lexington 40588

Alzheimer’s Disease/Dementia

Alzheimer’s Disease...is a form of dementia that is a progressive, degenerative and incurable disease that attacks brain cells, resulting in impaired memory, thinking and behavior. It is not a natural consequence of aging.

Dementia...is the loss of intellectual functions (such as memory deficit or confusion) which are required for daily living. Many conditions cause or mimic dementia, including depression, tumors, drug reactions, nutritional deficiencies and degenerative physiological diseases. Geriatric assessment can help determine cause and suggest treatment that can improve or reverse behavior patterns.

Alzheimer’s Association  (859) 266-5283 1-800-272-3900

Provides 24-hour Helpline, support groups, the Medic Alert + Safe Return* program, educational materials and programs.

work under UK faculty supervision. All supervisors are licensed marriage and family therapists. Sliding scale fee based on income.

Vet Center  (859) 253-0717 or (859) 281-4900
1500 Leestown Rd., Ste. 104, Lexington 40511
Behavioral health department offers inpatient and outpatient services, including telehealth appointments. Consultation, evaluation and treatment for variety of issues impacting emotional well-being including homelessness, addiction, sexual trauma, transition and adjustment, depression, grief, anxiety and more. Caregiver support also available.

GERIATIC CARE MANAGERS

Care managers are licensed professionals who provide oversight of services for an older adult. They assess the needs of the client and arrange for medical, social, mental health, housing and other services. Services can range from finding someone to do household chores to helping a family find appropriate nursing home placement. An individualized care plan is developed to achieve safety, comfort and well-being of the older adult. Care management fees are privately paid. Medicare or Medicaid may cover some medical and skilled nursing costs.

# Adult Day Services & Respite Care

## ADULT DAY SERVICES/RESPITE

### Adult Day Services/Social Model
Attendance can often provide a bridge for persons wishing to remain at home, but needing supervised activities, socialization and meals.

### Adult Day Care/Health Model/Day Treatment
Attendance is appropriate for an older adult also needing assistance with medications, physical therapy and some personal care. Transportation is usually an additional charge.

**Respite** is designed to ease the burden on families who provide care for one needing extensive physical, mental and medical help. It results in reduced institutionalization of a patient and reduced stress for the family. Some assisted living and nursing homes, adult day care centers and senior centers offer short-term care outside the home. Most home health care agencies provide qualified nursing care and companionship inside the home.

Adult day programs provide adults who cannot function independently an opportunity for supervision, social interaction, and meaningful activity. Adult day programs are defined as social or medical models of care; medical models offer supervised medical care in addition to social activities and meals. Hours are generally Monday – Friday, 7:30-5:30, with some programming available on Saturday.

Some questions to keep in mind when searching for the day center that meets your needs include the following:

- Is there a sliding fee scale? Are there additional fees not covered in the regular program costs?
- Is there after-hours respite care? What is the cost?
- Is there transportation available to and from the site? Is there an extra charge?
- How many volunteers are there?
- What is the quality of meals and snacks?

The Area Agency on Aging & Independent Living is a central point for information about senior centers, adult day care, the National Family Caregiver Support Program, the Kentucky Family Caregiver Program, Homecare, the Consumer Directed Option/Home and Community Based Waiver, and other services in the 17 counties that comprise the Bluegrass Area Development District.

Memory Care Concierge
www.MemoryCareConcierge.com
(859) 806-7973
Local dementia care specialist. Devoted to supporting those living with dementia and their caregivers. Family consultations, in-home family caregiver training, transitional support during moves, professional caregiver training, family caregiver coaching and more! See our ad on Page 87.

10 Ways to Encourage Caregiving

1. Call the caregiver on a regular basis to find out how he or she is doing.
2. Volunteer to stay with the care recipient one evening or afternoon a week or month-whatever you can offer.
3. Send a note or card expressing your love and concern for the family caregiver and care recipient.
4. Encourage the family caregiver to keep up their interests and hobbies.
5. Run errands for the caregiver to lessen his/her load.
6. Call the caregiver once in awhile and say “Don’t worry about dinner; I’ll be bringing it over at...”
7. Be a library runner for books and videos the caregiver would enjoy.
8. Offer to do on-line research and make phone calls to find information about available community services the caregiver and care recipient may be eligible for.
9. Stop by for a visit!
10. Share a hug; listen with an open heart, be a shoulder to lean on.

Department of Aging and Independent Living
275 E. Main St., 3E, Frankfort 40621
chfs.ky.gov/agencies/dail/pages/default.aspx
Administers the National Family Caregiver Support Program, Kentucky Family Caregiver Program, and other statewide programs. Call for information on programs in other states.

National Family Caregiver Support Program
1-866-665-7921
The National Family Caregiver Support Program provides family caregivers with information and services to improve their quality of life, as well as the life of the care recipient. This program assists adults who care for a family member age 60+, or 55+ if the individual has been diagnosed with Alzheimer’s Disease-related dementia. It also serves grandparents and relative caregivers age 55+ who are the primary caregivers for children age 18 and younger. Services include:
- Information about local services and assistance in obtaining needed services.
- Caregiver education and information about support groups and counseling.
- Respite care to provide temporary relief from the responsibilities of full-time caregiving.
- Other services to supplement the care being provided, determined on a case-by-case basis.

Part D – Prescription Drug Coverage

All people with Medicare are able to enroll in plans that cover prescription drugs. Plans vary based on income, but in general, this is how they work:

☑ Keep in mind that all plans have a different cost structure, and late enrollees may incur a 1% penalty for each month of delay.

☑ Annual Deductible - You pay 100% of drug costs until your deductible is met ($0 - $545 in 2024).

☑ Basic monthly premiums average $108.80 in 2024.

☑ Initial Coverage - Coverage and cost sharing begins until you meet the Initial Coverage limit ($5,300 in 2024 - this is what you and your plan pay combined).

☑ Coverage Gap - When your total drug costs exceed $4,660, your cost-sharing is 25% of covered brand name drugs and 25% of covered generics. Previously, the coverage gap or, “donut hole” was so called because you had to pay 100% of your drug costs.

☑ Catastrophic Coverage - Catastrophic coverage begins when you reach the out-of-pocket threshold ($8,000 in 2024). Beneficiaries will then pay a small amount (about 5%) for covered brands. Your plan will pick up the remainder during this phase.

☑ Those with limited incomes/resources may qualify for extra help (Limited Income Subsidy - LIS) through the Social Security Administration.

☑ Keep in mind that all plans have a different cost structure, and late enrollees may incur a 1% penalty for each month of delay.

Additional help is available for people of low income through the Social Security Extra Help program. Contact the Bluegrass SHIP Program at 1-866-516-3051 to see if you qualify.

To apply: You should apply three months before you want benefits to begin. You can file over the Internet, over the telephone or at an office. Call to schedule an appointment; walk-ins are welcome. You must present an original or certified birth certificate, W-2 form or end-of-year pay stub (if available), proof of military service, marriage certificate or divorce decree, bank routing number and account number for direct deposit. All documents will be returned.

Social Security is the nation’s largest financial assistance program for the elderly. The program funds the following benefits: Disability Benefits, Medicare, Retirement Benefits and Survivors Insurance.

**Medicare** is a federal health insurance program for people age 65+ as well as certain disabled individuals. There are two parts to Medicare. Part A is hospital insurance, which helps pay for in-patient care in a hospital or skilled nursing facility, home health care and hospice care. Part B is medical insurance, the arm of Medicare which helps pay for doctors, outpatient hospital care and other medical services. Part D is the Medicare Prescription Drug Program. Most people do not have to pay for Medicare Part A. Part B is optional with a 2024 premium of $174.70. Incomes over $103,000 (single) or $206,000 (married) may pay a higher Part B premium. You must file for Part B unless you are entitled to as Social Security benefit already. If you do not want Part B and already receive SS benefits, you must decline it. The premiums are automatically deducted from your monthly check. If you are not covered under an employer health insurance plan at age 65, you should enroll in Part B during a 7-month enrollment period. If you delay enrolling and are not covered by an employer health insurance plan, you will pay a 10 percent penalty on your premium for every year you delayed enrolling in Part B.

**Survivors Benefits** are payable to qualified widow(er)s and dependent children of a worker who died and is insured for Social Security benefits. Survivors benefits are intended to replace, in part, income that is lost due to the worker’s death. Widow(er)s may receive survivors benefits as early as age 60, or age 50 if they are disabled and unable to do substantial work. Under certain conditions, divorced widow(er)s may be entitled to benefits on a divorced spouse’s record if they were married at least 10 years. Social Security may pay a lump sum death benefit to a surviving spouse or dependent child(ren) of a deceased worker.

**Disability Benefits** are payable to workers who are unable to do substantial work because of a physical and/or mental condition that is expected to last at least a year or lead to the worker’s death. A worker must be insured for disability benefits; for most workers, that means they have worked 5 of the last 10 years. Family members may also qualify for benefits on the disabled worker’s record. The average disability benefit in 2024 is $1,537/month.

**Retirement Benefits** are payable to workers who are at least 62 and have earned the 40 credits needed to be insured for benefits. The retired worker’s spouse, minor children and disabled children who became disabled before age 22 may also be eligible for benefits on the worker’s record. A worker may earn up to 4 credits a year, so he or she needs at least 10 years of part-time work to be insured for retirement benefits. Work credits have nothing to do with the monthly benefit amount. Benefits are calculated based on the worker’s 35 years of highest earnings indexed for inflation. If you choose to retire before full retirement age (65-67, depending on the year you were born), you will receive permanently reduced monthly benefits. The closer you are to full retirement age, the higher your benefit will be. Workers who postpone collecting benefits past full retirement age may earn delayed retirement credits up until age 70 and boost their monthly benefit amount. The average Social Security retirement benefit as of in 2024 is $1,907/month (the amount changes monthly).

**Bluegrass SHIP Program (State Health Insurance Assistance Program)** 1-866-516-3051
300 East Main St., Ste. 110, Lexington 40507
www.lablaw.org/ship-program

SHIP is the only program in Kentucky that provides free, unbiased information about the programs that affect your life. Funded through the Older Americans Act, services are given to individuals age 60+ and to any person on Medicare. Highly trained SHIP counselors provide counseling and education on government benefits including Medicare, Medicare Part D, Medicaid, Social Security, Veterans Benefits and many other state and federal programs. The SHIP Program evaluates and assists clients with applying for money saving programs that will help with Medicare premiums, lowering medications costs, offsetting outstanding medical bills and lowering...
food costs. SHIP also assists with combating Medicare fraud, waste and abuse by teaching clients how to protect themselves and their medical identity. The SHIP Program is located within Legal Aid of the Bluegrass, a non-profit office that provides free legal assistance to individuals age 60+. SHIP provides a holistic approach and can link clients with attorneys if one is needed.

KYNCT HEALTHCARE CONNECTION
Kynect – Kentucky’s Healthcare Connection
Kynect is Kentucky’s health insurance program marketplace.
Those seeking to enroll into health insurance must use
currently healthcare.gov in order to compare and enroll into
the health insurance plan of their choice. Open enrollment
begins November 1 and ends on December 15. Some may
qualify for insurance throughout the year based on special
circumstances. Individuals can be assessed for payment
assistance, special discounts or tax credits to help cover the
cost of coverage. Beginning in 2022, those needing insurance
will no longer use healthcare.gov to enroll into insurance.
More information can be found at kynect.ky.gov.

SUPPLEMENTAL (SSI) INCOME
SSI is a federal program which makes monthly
payments to disabled or aged (age 65+) individuals who
have limited income and resources. To be eligible a
person cannot have over $2000 in assets and a couple
over $3000, excluding the home and, in most instances,
one car. A Social Security representative must help
determine eligibility. The SSI maximum monthly check
amounts are $943 (single) and $1,415 (couple) in 2024.
Benefit amounts may be adjusted each year.
MEDICARE

www.cms.hhs.gov (for general information)
www.medicare.gov (for people with Medicare)

To Apply: If you already receive Social Security benefits and are nearing age 65, you will be automatically enrolled effective the month you are 65. Your Medicare card will be mailed to you prior to your 65th birthday. If you do not want Medicare Part B, which is optional, follow the instructions that come with the card.

If you are nearing age 65 and not yet getting Social Security or Medicare, you can apply for both at the same time. To make sure that your Medicare Part B coverage start date is not delayed, you should apply three months before the month you turn 65. This is the beginning of your 7 month Initial Enrollment Period. To apply, you can call or visit your local Social Security office, call Social Security at 1-800-772-1213 or apply over the Internet at www.socialsecurity.gov if you meet certain rules.

If you do not receive Social Security benefits and you only want to apply for Medicare because you are nearing 65, you can apply by visiting your local Social Security office, or by calling Social Security at 1-800-772-1213. You should apply 3 months before the month you turn 65. This is the beginning of your 7 month Initial Enrollment Period.

Part A: Hospital Insurance
Covers the first 60 days of semi-private hospital care and up to 20 days of post-hospital skilled rehabilitative care in a hospital or skilled nursing facility (nursing home). Coverage of skilled nursing home care requires three consecutive midnights of admitted hospital care. There is a difference between being in the hospital and being admitted. Benefit period begins with day one of hospitalization and ends after you have been out of a hospital or used skilled nursing care for 60 consecutive days.

Part B: Medical Insurance
Pays monthly doctor bills, outpatient care, home health care, ambulance, lab and therapies for eligible Social Security recipients who pay the monthly premium. This fee is deducted from a Social Security check. The Part B premium is based on income.

Part B: Approved Amount
Medicare, not you or your doctor, makes the decision of an approved amount for each specific medical service. The doctor must be certified by Medicare. Medicare will only pay 80% of the approved amount which may be less than the fee you’re charged. You must pay the rest.

Part C: Medicare Advantage
Part C replaced Original Medicare (Parts A & B). Through Part C, you are insured through a private company that contracts with Medicare. You will obtain all services from providers that accept your Advantage plan. If you go outside of the network, you may have no coverage or may be required to pay more for services.
Part D: Prescription Drug Plan
See Page 57 for an overview of the plan.
Plan Considerations:
• All plans have a different cost structure!
• Late enrollees may incur a 1% penalty for each month of delay
• Those with limited incomes/resources may qualify

Assignment
Medical providers who accept Medicare payments are required to accept the Medicare approved amount for service or supplies. They may not charge you more than the deductible and 20% coinsurance. Example: You go to a doctor who accepts Medicare and you have already paid your deductible. The Medicare approved amount for the service you receive is $200. Medicare would pay 80%, or $160. You are responsible for no more than the remaining 20%, or $40.
If your doctor did not accept Medicare, and the charge for the service was $225, you could be required to pay the full amount immediately. Medicare would send you a check for $160 after the doctor filed the claim. You would be required to pay $65 more in this example.

Beneficiaries are now covered for:
• Annual mammogram, no charge. Part B deductible waived.
• Annual colorectal screening.
• Annual prostate screening.
• Bone mass measurement (to rule out osteoporosis).
• Diabetes screening, monitoring, self-management education.
• Flu & pneumonia shots (no co-payment required).
• Screening pelvic exams (every 3 years); pelvic exams and pap smears for high-risk women will be covered annually.
Note: For most preventative services the Part B deductible and co-insurance will likely be waived.

Medicare Automated Phone System
24 HOURS  1-800-MEDICARE (633-4227)
CLAIMS HELP/CUSTOMER SERVICE: M – F 8:30 A.M. – 4:00 P.M.

PATIENT'S RIGHTS UNDER MEDICARE
• To receive all hospital care necessary to your diagnosis and treatment
• To be fully informed about decisions affecting your Medicare coverage
• To appeal any written notice that Medicare will no longer pay for your care

If you think you are being asked to leave the hospital too soon, ask the hospital for a written notice of explanation immediately. Medicare HMO members have the same appeal rights. If you want to appeal, call your local Social Security office.
PACE Providers
Bluegrass Care Navigators PACE Care – “Program for All-Inclusive Care of the Elderly” 855-492-0812

5008 Atwood Dr., Suite 1, Richmond 40475
Serves Estill, Jackson, Madison and Rockcastle counties.

SENIOR MEDICARE PATROL (SMP)
The Senior Medicare Patrol (SMP) is a group of trained volunteers who help Medicare beneficiaries prevent and report healthcare fraud. SMP volunteers teach Medicare beneficiaries how to protect personal information, find errors on healthcare statements, recognize scams (like illegal marketing and billing for services that were not provided) and report fraud and mistakes.

Protect Yourself from Medicare Fraud, Errors, and Abuse
Protecting your personal information is the best line of defense in the fight against healthcare fraud and abuse. Here’s how you can take an active role in protecting your healthcare benefits:
- Treat your Medicare card like a credit card. Never give the number to a stranger.
- Save Medicare Summary Notices and Part D Explanation of Benefits and then shred them after one year.
- Medicare never calls or visits to sell you something.
- Don’t carry your Medicare card unless you will need it. Only take it to doctor or hospital appointments, or trips to the pharmacy.
- Record doctor visits, tests and procedures in your personal health care journal or calendar.

Detect Medicare Fraud, Errors, and Abuse
You should receive a Medicare Summary Notice (MSN) in the mail every three months. It is not a bill – it is a list of claims billed to your Medicare account. The MSN explains charges that will be paid by Medicare, by you, or by other insurance (like Medigap or employer insurance).
- Always read your Medicare Summary Notice (MSN)
- Check your MSN for these things:
  1. Is your information correct? Check the Medicare Number, name and address.
  2. Providers with Claims This Period: Make sure you recognize the providers listed here.
  3. Assigned Claims: Check each item listed. Compare these records to your Personal Healthcare Journal. If you see items or services that you didn’t get call the healthcare provider to ask about it.
  4. Amount Charged: Amount the provider billed Medicare.
  5. Medicare Paid Provider: Amount Medicare paid to the provider.
  6. You May Be Billed: The total amount the provider may bill you.
- Compare your MSN to your records and look for these three things:
  1. Charges for services or items you didn’t receive
  2. Billing for the same thing twice
  3. Services not ordered by your doctor

Report Suspected Fraud or Ask Questions
If you suspect errors, fraud or abuse, report it immediately! You can protect other people from becoming victims too.

When to Call SMP: 1-877-603-6558 or 502-574-6960
1. You called Medicare, your healthcare or insurance providers and they didn’t answer your questions.
2. You suspect or know that someone else is using your Medicare or Social Security number.
3. You need help with identity theft or scam questions.

BENEFITS THROUGH MEDICARE ADVANTAGE
The Centers for Medicare & Medicaid Services allow Medicare beneficiaries to decide how they want to receive their Medicare benefits. Some choose to enroll in Medicare Part C (also known as Medicare Advantage). In order to offer Medicare Advantage, Medicare contracts with private companies that agree to insure people on Medicare. Medicare Advantage plans mainly consist of HMOs and PPOs. If you enroll into a Medicare Advantage plan, you may pay an additional monthly premium, as well as, continuing to pay your Medicare Part B premium. Medicare Advantage must offer the same coverage that is obtained through Medicare Parts A and B. However, most Medicare Advantage plans offer additional benefits such as dental and vision coverage. If you enroll into a Medicare Advantage HMO or PPO, you must visit network providers in order to get the most out of this coverage. If you visit out-of-network providers, you may find that you are responsible for the entire expense or a larger portion of the expense. Medicare Advantage plans will cover emergency costs if you must obtain care outside of your network. You can join Medicare Advantage plans during specific times. You can call the Bluegrass SHIP Program for more information.

MEDICAID WAIVERS
If you are elderly, blind or disabled, Medicaid waiver programs can provide Medicaid coverage for many services that help you stay in your home. Different waivers serve different populations, including the elderly; people with physical, intellectual or developmental disabilities; those with acquired brain injuries; and individuals on ventilators. To qualify:
1. You must get a written certification by a physician that if Medicaid waiver services are not available, nursing facility services would be ordered and you would be admitted to a nursing facility in the immediate future;
2. You must meet the nursing facility level of care defined by Section 4 of 907 KAR 1:022 or meet requirements for residence in an intermediate care facility for people with mental retardation (ICF/MR);
3. You must meet the income and resource limitations required by the program.

For more information, visit chfs.ky.gov/dms/mws.htm or contact the Division of Community Alternatives, Kentucky Cabinet for Health and Family Services, at (502) 564-5560, or the Bluegrass Aging & Disability Resource Center, at 1-866-665-7921.

MEDICAL CLAIMS ASSISTANCE

Hospitals will process claim forms for you through their senior membership programs if you have bills connected with their hospital or physicians. Many home health care agencies also process claim forms for services they provide. Call your local senior center for personal counseling.

Bluegrass State Health Insurance Assistance Program (SHIP) 1-866-516-3051
LEGAL AID OF THE BLUEGRASS, 300 EAST MAIN ST., STE. 110, LEXINGTON 40507
Counseling program for adults age 60+. Determines if they qualify for private or government benefits. Helps with health insurance forms and claims.

MEDICAID SPEND-DOWN

Medicaid Spend Down offers help to those persons on Medicare but have income too high to receive Medicaid but have incurred medical expenses that are higher than their total income. The SHIP Program and/or the Department for Community Based Services office can assist you with applying for this benefit. You must apply within 90 days of incurring the medical expense and you do not need to receive your medical bills before you apply.

Medigap Insurance

If you do not have insurance from a former employer that fills gaps in Medicare, there are several insurance companies that sell supplemental coverage to fill these gaps. They sell policies called Medigaps that help cover Medicare deductibles, coinsurance and some additional benefits. There are 8 different standardized Medigap plans, as A, B, D, G, K, L, M, and N. For people enrolled into Medicare prior to January 1, 2020, Plans C and F are available for purchase. (except in Mass., Minn. and Wisc.). Not all plans are available in all areas.

Each Medigap plan pays for a particular set of benefits. Plan A offers the fewest benefits and is usually the least expensive. Plans that offer more benefits are generally more expensive.

All Medigap plans (A–N) must include the following basic benefits:
- Hospital coinsurance coverage.
- 365 additional days of full hospital coverage.
- Full or partial coverage for the 20% coinsurance for doctor charges and other Part B services (K and L only cover this after you have paid the out-of-pocket limit).
- Full or partial coverage of the first 3 pints of blood you need each year.

Depending on which Medigap plan you choose, you can get coverage for additional expenses Medicare doesn’t cover, including:
- Hospital deductible (plans B to N).
- Skilled nursing facility coinsurance (plans D to N).
- Part B deductible (plans C, F, and J which are no longer sold to most Medicare beneficiaries).
- Excess doctor charges (plans F, G, I and J).
- Emergency care outside the U.S. (plans C to J).
- At-home recovery (plans D, G, I and J).
- Preventative care Medicare doesn’t cover (plans E and J).

MEDIGAP INSURANCE CONSIDERATIONS

☑ Can the company cancel or refuse to renew the policy?
☑ What are the policy exclusion limits for covered services?
☑ If the annual premium is low, does the cost raise with age?
☑ Will I have to wait before benefits will be paid?
☑ Will I have to wait before existing health problems are covered?
Long Term Care Insurance

Most people begin paying for nursing home care from savings and assets, which can be quickly spent. Once a person has become basically impoverished, (see Medicaid Eligibility requirements) the Medicaid federal/state government-funded insurance program pays for care. Anyone with assets exceeding $150,000 to protect, in addition to a house, should research long term care insurance.

COMPANY CHECKLIST

☑️ How long has the company been in the long term care business? A good company should have been in business at least a couple of years. Don’t be taken in by low premiums to attract customers.

☑️ Watch out for quick 2–3 day turnarounds for policy approval. Expect a 4 week turnaround for approval.

☑️ Research the company’s financial strength. A.M. Best is an industry-respected independent rating firm. A+ Superior or A Excellent is okay. Stay away from any rating below A. If you can’t get Best’s report at the library, ask your agent.

☑️ Make sure the company performs medical underwriting at the time of application rather than at claim time.

☑️ How has the company treated current policyholders when they update? Have enhancements been written on a guaranteed basis, for additional cost or has medical requalification been required?

☑️ What is the company’s claim paying record? Know the percentage of claims paid by the company. If new, excessive claims may raise rates in future years.

POLICY CHECKLIST

☑️ Is the policy tax qualified? If a policy is, the benefit is generally not considered as income to the owner. You may get a tax break and better protection.

☑️ Make sure the policy has a guaranteed renewable clause so you cannot be canceled or singled out for rate increases.

☑️ Be sure to understand whether you are buying a reimbursement or an indemnification policy. Reimbursement policies will pay covered claims received by the insurer. Indemnification policies pay a stated amount each month regardless of claims received, but they are usually more expensive.

☑️ Check to assure that the waiver of premium applies to both nursing home and home health care. This continues to cover you at no further cost while collecting benefits.

☑️ Check for inflation protection—this rider offers either simple increase or one that is compounded, usually three to six percent of the daily benefit annually. This type of inflation rider has level premiums which is important because costs increase with age. Make sure you know if the rider renews automatically each year or if you have to request renewal yourself.

☑️ Look for policies that cover home health care fully. Most long term nursing care is provided inside the home.

☑️ What are the Activities of Daily Living (ADLs) that the company uses? How are they defined and how many must be lost to trigger benefits?

☑️ A good policy does not require you to be hospitalized before benefits are payable. The need for nursing home care and/or home health care may differ from the reason for hospitalization.

☑️ All levels of nursing care should be covered: skilled, intermediate and custodial. How are they defined?

☑️ Policy should specify Alzheimer’s Disease and frailty and cover organic, mental and nervous disorders that cause cognitive impairment which may prevent you from dressing, bathing and toileting without help.

☑️ What is the length of the benefit period? Does the policy allow you to use your nursing home benefits in the home when home health care benefits are exhausted and vice versa?

☑️ What is the deductible or waiting period? This can range from 0 to 365 days. It should be one that fits your budget since most people begin paying for nursing home care from savings and assets.

TERMS

Activities of Daily Living
Activities necessary to maintain independent living. May include dressing, toileting, continence, transferring, feeding, bathing and grooming.

Adult Day Care/Adult Day Services
See page 55.

## CUSTOMER SERVICE

If you join a Medicare Advantage Plan (HMO, PPO, FFSP), call their customer service number directly with questions you have about your care or benefits.

If you use traditional Medicare health insurance benefits, call for:
- Part A Hospital and SNF Claims:
  - 1-800-MEDICARE or 1-800-325-0778 TTY
- Part B Claims:

    - 1-800-MEDICARE or 1-877-486-2048 TTY or visit [www.medicare.gov](http://www.medicare.gov)

**Take Note:** When an insurance company limits your coverage or denies you coverage, you have the right to appeal the decision. Call (502) 564-3630.

To get a copy of the federal government handbook, audiotape, Braille, large print or Spanish versions of Medicare and You, call 1-800-MEDICARE or 1-877-486-2048 TTY or visit [www.medicare.gov](http://www.medicare.gov)

2024/25 Edition
Custodial/Personal Care
Personal, non-medical help with the ADLs such as dressing, bathing, eating and other routine activities.

Elimination Period and Exclusion
Refers to the waiting period of the policy; the initial number of days before benefits are paid. Any condition or expense not paid for by a policy.

Deductibility of Premium
For income tax purposes, some individuals may be allowed to deduct some or all of their policy premiums with other medical expenses.

Guaranteed Renewable
This means a policy cannot be cancelled unless you fail to pay premiums when they are due. Premiums cannot be raised unless there is a rate increase for all policy holders in a particular group.

Intermediate Care
Occasional nursing or rehabilitative care performed by, or under the supervision of, skilled medical personnel.

Interval Period
Some policies incorporate a 30 – 180 day waiting period before being readmitted, ask your agent or the company if and how an interval period applies to your policy.

Medicare Certified
Long term care policies require that care be Medicare certified to qualify for benefits. This means a doctor’s order for care must be issued.

Skilled Nursing Care
Daily nursing and rehabilitative care that can be performed only by, or under the supervision of, skilled medical personnel such as RNs, LPNs and therapists.

Transient Crimes and Elder Fraud
What You Need to Know
Most crimes committed against older adults are “transient crimes”, many involving home repairs or diversions where a person requests to come into the home to use the bathroom, ask for a drink of water, or to “check out” an unreported problem.

Older adults are especially vulnerable to be victims of transient crimes because they:
- Live alone and are eager to socialize.
- Know that they can’t make needed repairs and fear losing independence, thinking that family members will believe that they are unable to maintain their own home.
- Are eager to please and be helpful.
- Have money at home and in the bank.
- May have declining eyesight, hearing or memory which hinders understanding and identification for prosecution.
- May be susceptible to intimidation and influence.

BE AWARE
- No matter how good it sounds, you really can’t get something for nothing or get a “deal” that’s too good to pass up.
- Do not allow ANY stranger into your home. No exceptions. Bathrooms and water are usually just a few short blocks away – a stranger does not need yours.
- All gas, water, electric and cable workers have ID badges and would never ask to “check your system” to gain entry, offer to “correct” a problem for a cash refund.
- Do not sign any contract or use any service offered by a person that approaches you cold by phone or especially “door to door.”
- Get all work contracts in writing with quotes and detailed description of the work to be performed, wait at least 3 days until the work begins and if you have any questions at all, talk it over with someone you trust.

Be on the alert for findings of non-existent “damage”, failure to perform work and extortion for higher payment after the job is completed.

**Take Note**

Getting a good night's sleep. A recent study of people ages 64 to 99 found that persons with sleep problems such as sleepwalking, trouble with falling asleep and waking too early, had an increased risk of daytime falls.
Hospital Health Care Systems

Hospitals now provide a wide range of services including emergency assistance, health screening and monitoring programs, rehabilitation, home health care and aides, physician referral and family and pastoral counseling. Neighborhood locations, mobile units, specific disease assessment and treatment centers, as well as hospital ownership of nursing agencies and continuing care living facilities warrants the more accurate description of "health care system."

It is the nature of hospitals to specialize in providing care and technology for severe illness and disease. Many tertiary care hospitals have satellite centers and/or physician centers to offer our community greater access to non-acute health care services. Additionally, many hospitals are expanding their menu of services to include home health and in-home hospice care, medical equipment, retirement housing and skilled nursing home care.

Cardinal Family Care (502) 804-5495
312 S 4TH STREET SUITE 700, LOUISVILLE

Home Health Care

Home health care agencies offer a range of services that allow you to remain safely at home with some assistance in daily living, whether it's medical, cooking, personal hygiene, transportation, companionship, or rehabilitation and support to aid the healing process after illness, surgery or injury. If you need several services, a medical social worker will visit you in your home to determine what services you need and will help you arrange for them.

Selecting an Agency

Selection of an agency is a personal decision that should be made based upon your needs. Senior centers, hospital discharge planners or social service workers, physicians, public health departments, United Way agencies, religious and senior citizens groups can all serve as advisors in the selection of an agency. Medicare does not pay for personal care services such as bathing, feeding, grooming, transferring from a bed to chair or toileting. Personal care services are usually paid for by the family.
RANGE OF SERVICES

Agencies may provide free assessments to determine a cost effective plan of care. Per visit or hourly rates vary by agency, skill level, intensity of care, length and timing of services.

Medicare Coverage Guidelines
Qualifying for home health benefits under Medicare is never guaranteed. Minimally, the patient must be:
- Homebound
- Under the care of an M.D. who requests skilled care
- Need skilled nursing or physical therapy services on an intermittent basis. (Patients who require more than intermittent care, but refuse alternatives, are not eligible.)

Examples of skilled nursing services covered by Medicare:
- Wound dressing involving prescription drug and aseptic technique
- Bladder and bowel training in the case of incontinence
- Colostomy or ileostomy care
- Injections
- Respiratory, physical, speech or occupational therapies

Medicare does not cover any private duty nursing costs. A patient may be very frail and require many support services such as enemas, incontinence care, bathing, personal grooming, transfer from bed to chair, ambulatory assistance, prompting for performance of basic activities of daily living (ADL), meal preparation and feeding, dressing, homemaking, chore and companion services. Medicare will not pay for these if the guidelines listed above are not met.

TERMS

Case Management
Professional social worker or nurse makes in-home assessment and determines plan of care. Makes sure that care is achieving its purpose towards client safety and recovery.

Clinical Nurse Specialists
Have extensive training in a subspecialty such as geropsych or ET or IV therapy. Help in training family members to help provide care for the patient.

Discharge Planner
Works with patients and family members at hospital dismissal to guide in the decisions needed for either nursing home placement, home health care services, rehab, therapies, etc.

Hi-tech Specialty Nursing
Includes home transfusion therapies, central line, porta catheters and dialysis services.

(Continued on Page 72)
Home Infusion Therapies
Enteral (ET): Nutritional tube feedings through the stomach; Parenteral (TPN): Venous nutritional feedings; IV: Venous medication delivery.

Homemaker/Companion Service/Personal Care
Assists with light housekeeping, meals planning and prep, laundry and provides companionship. Personal care services include help with bathing, toileting, dressing, walking, getting in/out of bed, grooming, etc.

Medical Social Work
Licensed Social Worker consults with patient and family, making referrals for chronic medical problems and to available community resources.

Occupational Therapy
Includes exercises, adaptive equipment, splinting, joint protection, energy conservation.

Patient’s Bill of Rights
A patient is entitled to the highest quality of care with dignity, respect, full information disclosure, forthright information about fees and charges and the right to privacy.

Physical Therapy
Includes exercise, equipment recommendations, gait training, ultrasound, whirlpool, etc.

Private Duty Nursing
One on one individual skilled nursing or personal care by an RN, LPN or Certified Nurse Aide in a person’s residence. Generally charged by the hour.

Speech Therapy
Evaluation and treatment of communicative, cognitive and swallowing disorders.

Respiratory Therapy
Exercises to enhance breathing and lung oxygen supply.

Skilled Nursing Care
Tasks that cannot be effectively performed or self-administered by the average non-medical person without the direct supervision of a licensed nurse. Provided by RNS, LPNs or physical, speech or occupational therapists. Must be ordered by a physician in conjunction with a care plan. Services include injections, insertion of catheters, observation of decubitis ulcers, manual removal of impaction, diabetic teaching and other services ordered by a medical professional.

QUESTIONS TO ASK
☑ Will the same person be dependable and available through all care? Is there a supervisor who oversees all care and will help address any questions or problems?

☑ Does the agency have 24 hour/day, 7 days/week service in case of emergencies?

☑ How is the agency accredited and is it Medicare licensed and/or Medicaid certified?

☑ How long has it been in business? Is it affiliated with any hospital, community or social service agency?

☑ Will a representative consult with our physician and family members to develop a written care plan outlining specific duties caregivers are to perform, at what intervals and for how long? Will all necessary agency personnel know what our needs are?

☑ Does the agency screen and bond all workers and guarantee that they are protected with written personnel policies and basic benefits such as social security, liability, malpractice insurance and worker’s comp?

☑ How often will we be billed and who will we pay? Is third party reimbursement available? Will the agency file Medicare, Medicaid, HMO and private insurance?

☑ What services do we need? What will they cost, per visit or per hour, including overtime or holiday charges? How are charges calculated? Is there a minimum number of hours or days per week? What happens when our insurance and/or Medicare runs out?

HOME HEALTH AGENCIES
In order to offer Home Health services in Kentucky, Home Health Agencies must obtain a certificate of need and be licensed to serve a given geographic area. Only licensed agencies may be certified to receive Medicaid reimbursement for providing home health services. These are the only type of agencies that can offer “skilled” services. Contact the individual agency to see if they are licensed to provide services in your county.

Baptist Health Home Care
(859) 260-6569
www.BaptistHealth.com/HomeCare
We provide care 24 hours a day, seven days a week. Our specially trained nurses and therapists work with your physician to deliver care right where you need it – at home.

Alliance Medical & Home Care is a locally owned and operated medical staffing agency. We also provide private duty caregivers in assisted living facilities and homes to assist with personal care, companionship, homemaking, mobility, transportation/errands, toileting/incontinence, medication reminders and respite. All caregivers are thoroughly screened, bonded and insured. Services are provided hourly (4 hr. min.), or on a live-in basis in Fayette and surrounding counties. Call for a free in-home assessment. An Alliance Representative is on call 24/7.

**Better Assessment. Better Care Plan. Better Outcome.**

**Senior Helpers**

**Life Profile**

**You can’t think of everything...**

**But Life Profile Can!**

Senior Helpers LIFE Profile helps families and loved ones work together to create a safe, comfortable environment to remain in the home with the specific assistance and support they need.

After completing a thorough review, Senior Helpers creates a customized care plan that becomes your blueprint to schedule, manage, and direct care activities for your loved one based on their individual needs. The care plan is also used to measure progress and further improve care, allowing your loved one to successfully age at home.

That's Senior Care, Only Better.

Home Instead Senior Care  (859) 273-0085  
A LICENSED PERSONAL SERVICE AGENCY  
207 E. REYNOLDS RD., SUITE 150, LEXINGTON 40517  
www.homeinstead.com/LexingtonKY  

Since 2000, a passionate dedication to serving people has  
set Home Instead Senior Care’s CAREGivers apart. Our  
CAREGivers are thoroughly screened, extensively trained,  
insured and bonded, matched to your preferences,  
professional, reliable and dependable. They assist with  
personal care including bathing, incontinence, grooming,  
eating, dressing, medication reminders, mobility and  
cognitive impairment, and provide companionship,  
meal preparation, housekeeping, laundry, insurance and  
workers’ compensation responsibilities, and conduct  
periodic quality assurance visits. Care can be arranged  
hourly, overnight or for 24 hours up to 365 days per year.  
Call for a free non-obligatory consultation.

HOMECARE  1-866-665-7921  
BLUEGRASS AREA AGENCY ON AGING AND  
INDEPENDENT LIVING  
699 PERIMETER DR., LEXINGTON 40517  
www.bgaaal.org  

Available in all 17 counties of the Bluegrass Area  
Development District. Homemakers (personal care  
and home management), home-delivered meals,  
chores (heavy housecleaning), escort services, respite  
for caregivers, and home repair services (limited to  
improving safety of the home). Eligibility determined by  
an assessment of ADLs and IADLs. Limited to those 60+  
who are entering or likely to enter long term care facility  
for whom in-home services can be more appropriate  
and cost effective in response to their needs. Clients are  
monitored through case management activities. Sliding  
fee scale based on income. Estimates can be given.  
Individuals who meet eligibility criteria for the Medicaid  
Home and Community Based Waiver do not qualify.

CAREGIVER TIP  
Many older adults, including those with dementia,  
simply need basic grooming, bathing, feeding, home  
maintenance and chore, or comfort care services.  
These do not qualify as skilled nursing care and,  
therefore, are not covered by Medicare. This is when  
your family should consider Care at Home services.

2024/25 Edition

Lifeline Homecare  (859) 273-2708 or 1-844-543-3546  
2358 NICHOLASVILLE RD., STE. 170, LEXINGTON 40503

Hospice Care

Hospice is a special kind of humane and compassionate care designed to provide comfort, sensitivity and support for people in the final phase of a terminal illness. Hospice care can be provided in a variety of settings: in-home, in hospitals or in nursing homes. Hospice is covered by Medicare, Medicaid and most private insurance plans.

Components of Hospice Care
- Offers pain-relieving, not curative treatment
- Treats the person, not the disease
- Emphasizes quality, rather than length of life
- Considers the entire family, not just the patient
- Provides 24-hour help and support to patient and family

Hospice services are provided by a team of trained professionals including physicians, nurses, counselors, clergy, therapists, aides and volunteers.

QUESTIONS TO ASK
- What’s the response to your very first call?
- What services and how many hours of services are provided if the patient needs 24-hour care?
- What will the actual out-of-pocket costs be?
- Will the same team stay with the patient throughout the entire length of care?
- Is long term bereavement family support is available?
- How long has the hospice service been in business in the area and is it affiliated with any hospital, community or social service agency?
- If hospital care is needed, does the patient have choice of hospital and physician?
- How long will it take to begin hospice service?
- Will someone be with the family at the time of death?
- What relationship does your doctor have with the hospice provider?
- Will in-patient care be provided in a designated hospice unit?
- What happens if the patient no longer needs in-hospital care but cannot go home?
- What nursing homes are the hospice provider contracted with?
- How often does someone visit?
- What is the average caseload carried by each nurse?
- How often will a home health aide visit if the patient has intensive physical care needs?
- Are there any special services or therapies offered that meet the patient’s specific needs and wishes?
- What happens if Medicare or private insurance coverage ends?
- Will the hospice service file insurance claims? How will out-of-pocket expenses be handled?
Who can be called after normal business hours and how fast do they respond?

www.starkeyhearingfoundation.org
Provides hearing aids to low income hearing impaired. Must have documented hearing loss. Covers cost of hearing aids and molds. Contact your audiologist. Application available online. Hear Now collects hearing aids for recycling purposes.

Make Sure You Are Treated Properly by Your Doctor.
It is important that you have a doctor who you trust and who pays attention to your needs. You may want to consider switching doctors if the following occur:

- Your doctor always seems rushed.
- Doesn’t examine you thoroughly.
- Doesn’t remind you about important screening tests, such as mammograms and DRE’s.
- Doesn’t answer your questions satisfactorily or in terms you can understand.
- Doesn’t take notes on your condition.
- Doesn’t listen to your concerns.
- Files health-insurance claims that your insurance company often rejects – perhaps because of sloppy record-keeping.
- Often misplaces your test result or chart.
- Bills your insurance company for tests or procedures you did not receive.
UK Communication Disorders Clinic  (859) 257-7918
900 S. Limestone St., CHARLES T. WETHINGTON BLDG.
ROOM 110, LEXINGTON 40536
Diagnoses and treats speech and language disorders.
Services are available to those with difficulties in
communication resulting from hearing, speech, language,
swallowing, and voice disorders. In addition to the
outpatient clinic, a graduate student-run speech-language
pathology clinic is also housed in this space.

MONITORING SYSTEMS

Emergency Response monitoring systems summon help 24 hours a day. In either voice or non-voice activated units, the alert goes out to a response center which tries to contact the subscriber, then pre-designated persons if necessary. Some have a timer option where, if the subscriber does not reset a button every 24 hours, an alert is sent to the response center.

**HEART**

American Heart Association (859) 317-6880
354 Waller Ave., Lexington 40504
INCONTINENCE

Incontinence is...
- The loss of bladder or bowel control;
- A medical condition, not a disease;
- Not a "normal" part of growing old or the aging process;
- A common condition that affects approximately 25 million Americans;
- Treatable – a variety of options are available.

It is essential to contact a health professional to determine the specific cause of incontinence. There are many specialists available to assist in an assessment of bladder control conditions and to provide further information on treatment options. Organizations which can assist you with information on treatment, products and services available include:

American Urologic Association 1-800-746-4282
National Association for Continence 1-800-252-3337
www.nafc.org
Simon Foundation for Continence 1-800-737-4666
www.simonfoundation.org

KIDNEY

Kidney Health Alliance of Kentucky (859) 277-8259

www.pscky.org

STROKE

American Stroke Association 1-800-242-8721
www.stroke.org
A resource center that provides information on stroke including prevention, recovery, and rehabilitation.
Safety In the Home: Questions to Consider

**Lighting**
- Is the lighting adequate but not glare-producing?
- Are the light switches easy to reach and to turn on?
- Can lights be turned on before entering rooms?
- Are night-lights used in appropriate places?

**Hazards**
- Are there throw rugs, highly polished floors or other hazardous floor coverings? If so, where?
- Can they be removed or made less hazardous?
- Do area rugs have non-slip backing and are the edges tacked to the floor?
- Are cords, clutter or other obstacles in the pathways? If yes, can they be cleared?
- Are doorways wide enough to accommodate assistive devices?
- Do door thresholds create hazardous conditions?
- How does the person obtain objects from hard to reach places? (Chairs can be hazards)

**Furniture**
- Are chairs the right height and depth for the individual?
- Do chairs have arm rests?
- Are tables sturdy and will not tip if leaned on?
- Is small furniture placed away from pathways?

**Stairways**
- Are there light switches at the top and bottom of the stairs?
- Are there securely fastened handrails on both sides of stairs?
- Are all the steps even?
- Should colored tape be used to mark the edges of the steps, particularly the top and bottom?

**Bathroom**
- Are grab bars placed appropriately for the tub and toilet?
- Does the tub have skid proof strips or a rubber mat in the bottom?
- Is there a tub or shower seat available?
- Can the shower head be replaced by a hand held shower head?
- Is the height of the toilet appropriate?

**Bedroom**
- Is the height of the bed appropriate?
- Is the mattress firm enough at the edges to provide enough support for sitting?
- If the bed has wheels, are they locked securely?
- Would side rails be a help or a hazard?
- When side rails are down, are they completely out of the way?
- Is the pathway between bedroom and bathroom clear of objects and well lighted at night?
- Would a bedside commode be useful, especially at night?

**Kitchen**
- Are storage areas used to the best advantage - e.g. frequently used objects in the most accessible places?
- Are appliance cords in good condition and out of the way?
- Are non-slip mats used in front of the sink?
- Are the markings on stoves and other appliances clearly visible?

**Emergency**
- Is an emergency response system available (911)?
- Does the person know how and when to use it?
- Would a private emergency call service be helpful?
- Is the person's vital information listed in a place where it would be accessible in an emergency?

**Temperature**
- Is the temperature comfortable for the person?
- Can the person read the marking on the thermostat and adjust it?
- Is water temperature less than 110 Fahrenheit?
- During hot weather, is there adequate ventilation?
- During cold weather, is the furnace working properly?

1824 Hill Rise Dr., Lexington 40504

2024/25 Edition
Housing Options

There are many housing and living choices. Many apartment units have been built especially for older persons. Some apartment houses may be the site of a senior center or a congregate meal program. Others have transportation and outreach programs with a nearby senior center.

INFORMATION & ASSISTANCE

Community and Resident Services  (859) 300-5300
498 Georgetown St., Lexington 40508
www.lexingtonky.gov/departments/adult-tenant-services
Provides limited financial and housing assistance, crisis intervention, and counseling to residents 18 and older in Fayette County.

Housing Authority  (859) 281-5060
TDD:
LEXINGTON-FAYETTE URBAN COUNTY
300 West New Circle Rd., Lexington 40505
www.lexha.org
Eligibility: Low-income persons.
Cost: Rent is based on income.
This agency is in charge of all Lexington-Fayette County public housing, with 330 apartments especially for older persons. Apartments are rented to low-income persons. Applications are taken Mon. - Fri., 8 A.M.-4:30 P.M.
Emergency Housing - If you have an emergency situation, you may utilize the Federal Housing Preference Waiting List or contact the Salvation Army Emergency Shelter located at 736 West Main St. by calling (859) 252-7706. Limited financial assistance for emergency housing may be available through Community Action at (859) 233-4600 or Volunteers of America (859) 254-3469. For abuse situations, contact the Cabinet for Health and Family Services Adult Protective unit in your area or your local law enforcement agency. A limited number of temporary shelters are available for such cases.

Homestead Exemption Act  (859) 246-2722
Property Valuation Administrator
101 E. Vine St., Suite 600, Lexington 40507
www.fayettepva.com
The Homestead Exemption is available to homeowners age 65+ or those who are disabled. Applicants must own and maintain the home as their primary residence and cannot have a similar exemption on any other property. For 2024, the exemption reduces the home's taxable value by $46,350. In order to receive the exemption, applicants must complete a one-page application and provide proof of eligibility. Visit the website above to learn more about what documents can prove eligibility and to print the application, or call the PVA Office to request an application or more information.

Kentucky Housing Corporation  (502) 564-7630 or 1-800-633-8896
1231 LOUISVILLE RD., FRANKFORT 40601
www.kyhousing.org
Administers federal programs including rental assistance that make safe, decent, affordable housing available. Offers programs to homeless, low-income families for rental housing financing and rehabilitation, home ownership education, and home repair initiatives.

Lexington Fair Housing Council  (859) 971-8067
207 E. REYNOLDS RD., LEXINGTON 40517
Investigates complaints of discrimination related to housing, homeowners or renters insurance, and mortgage financing. Investigates complaints statewide and does not charge for its services.

REACH, Inc.  (859) 455-8057
733 RED MILE RD., LEXINGTON 40504
www.reachky.com
Private nonprofit organization committed to making home ownership more affordable to low income to moderate-income families in Fayette and surrounding counties. Through the program, loans may be available for first-time down payments and closing costs.

IN-HOME DEMENTIA ASSISTANCE

Memory Care Concierge  (859) 806-7973
www.MemoryCareConcierge.com
Local dementia care specialist. Devoted to supporting those living with dementia and their caregivers. Family consultations, in-home family caregiver training, transitional support during moves, professional caregiver training, family caregiver coaching and more!

QUESTIONS TO ASK

If I wish to remain in my own home, what services will I need, and can I afford them? What about:
• Repair/maintenance, home adaptation remodeling?
• Personal and nursing care assistance?
• Cooking?
• Companionship, safety and reassurance

If I choose to move to an adult living community, will I have:
• Privacy?
• Emergency assistance and security?
• Frequent laundry and housekeeping service?
• Access to transportation, shopping and preferred worship?

• A place that feels comfortable?
• My own furnishings?
• Good food and a selection of food?
• My preferred diet and have in-room tray service if I decide I’m not feeling well?
• My own phone? And be able to have my family and friends visit when I like?
• Scheduled activities that I like?

Do I:
• Need respite care?
• Like the decor and feel at home?
• Feel comfortable with the worship services?
• Like the management, the people, their approach, philosophy and styles?
• Understand all room costs and additional fees?
• Feel secure about the financial stability of the owners/management?
• Insurance and billing help?

FAMILY CARE HOMES

State licensed, community-based residences that provide 24-hour supervision and personal care to 1 – 3 non-related persons. Personal care includes room, meals, laundry, cleaning, supervision of medications, and assistance with activities of daily living, such as bathing, dressing, and grooming. Family Care Homes are intended to promote family-like care of residents. Most residences are actually private homes in which residents may have a shared or private room, and communal dining and living area.

Individual operators of Family Care Homes determine the cost of care and services provided. In general, monthly fees may range from $800 – $2,000/month, depending on the type of home and services provided. Because Family Care Homes promote a family-like environment, residents should feel comfortable with the operator, family members living at home, and other residents. When considering placement within a Family Care Home, potential residents should openly discuss their schedules, personal needs, diet, medications, social activities, likes, and dislikes with the operator. Additionally, consumers should give consideration to the location of the home, its general condition, and the operator’s training and professional experience. For more information on family care homes, a complete listing, or placement, contact:

Family Care Home Services of the Nursing Home Ombudsman Agency of the Bluegrass (859) 277-9215 or (877) 787-0077

HOUSING OPTIONS

Pathways - Information for Older Adults 2024/25 Edition
Senior Housing and Supportive Care Communities - Overview

There are four main categories of Senior Housing available: Independent Living, Assisted Living, Personal Care and Long Term Care Facilities. Each offers different levels of care and support to residents. Within those main categories there are several services available for specific needs such as Memory Care Units in Personal Care Facilities or Long Term Care Facilities for those with memory disorders. Some communities offer several of these categories, creating a continuum of care service.

WHAT TO LOOK FOR WHEN CHOOSING ANY TYPE OF SENIOR HOUSING

Upon arrival, your first impression should be one that makes you feel comfortable and secure.

Ask yourself the following questions:

• Is the community clean and maintained, inside and out?

• Are residents participating and enjoying themselves alone and in group settings?

• Is the staff friendly, pleasant, and well groomed?

• What is the staff-to-resident ratio, including nights/weekends?

• Is the staff licensed or certified? If not certified or licensed, what kind of training does staff receive?

• Are there social activities available that you enjoy?

• Are housekeeping services available, and what do they include? What is included in the monthly service fee? Do you have a listing of additional charges?

• Does the community sponsor religious activities or provide transportation to places for worship?

• What type(s) of transportation are available, and how often may they be used? How is transportation scheduled? Is there a limit to the distance the transportation serves? What, if any, are the transportation fees?

• Are there services that you need, such as a hairdresser, health club, or a gift shop on the premises?

• Does staff address the residents by their proper names?

• May you meet the facility manager and other pertinent staff members, or visit on a weekend and share meal with another resident prior to your decision?

• Are there guest facilities for visiting friends or relatives?

• How are the meals served? Is there assigned seating, or are you free to choose where you would like to sit? What special diets are offered? Is there a dietician on staff? How often are menus changed and how are they planned? What types of meal plans are offered?

Always visit more than one place! They all have different atmospheres and cultures; you want to be comfortable. Spend some time looking around. Try to observe at different times of day to see how social activities, care and meals are handled.

CHOOSING AN INDEPENDENT LIVING COMMUNITY

If you are physically and socially independent and choose to live in a community with others, independent living communities might be right for you. Many of the independent senior communities offer different levels of assistance and services, such as meals, transportation, social and recreational activities, security, housekeeping and maintenance. Some even offer additional levels of care (assisted living and skilled nursing care) in the community.

CHOOSING AN ASSISTED LIVING OR PERSONAL CARE FACILITY

Ask yourself the following questions:

• Is the cost of the facility covered by your long-term care insurance?

• Is the food appealing?

• Are there handrails to help residents walk safely?

• What assistance with activities of daily living (bathing, dressing, grooming, transferring, toileting, eating) is given? How often?

NURSING HOME DATABASE

The Federal government keeps a database of over 17,000 nursing homes in the United States. Information is available on 10 quality indicators, examining such things as the prevalence of physical restraints at a facility and the percentage of residents who have bed sores. Also available is information found during annual inspections, such as deficiencies and complaint investigation.

The information can be accessed by calling 1-800-MEDICARE, or by visiting the government’s web site, www.medicare.gov.
• What assistance with instrumental activities of daily living (housekeeping, shopping, laundry, chores, and transportation) is given? How often?

• Is the Assisted Living Community certified by the Ky. Department for Aging and Independent Living?

• Is the Personal Care Community licensed by the Office of Inspector General?

• Is the outside of the facility clean and in good repair?

• Is there an odor when you enter the facility?

• Are the rooms clean and in good repair?

• Are there grab rails in the bathrooms?

• Are there places outdoors for residents to sit?

• Can residents in wheelchairs get around easily?

• Is there enough light for residents to see and feel comfortable?

• Do you see the residents’ personal items from home in the rooms?

• Is there a private location for you and your family to visit?

• Do the residents appear to enjoy being with the staff and vice versa?

• Are most of the residents dressed for the season and the time of day?

• Does the staff know the residents by name and address them properly?

• Does the staff respond quickly to call lights?

• Are there a variety of activities going on while you’re there?

• Are residents included in the meal planning?

• Is there a resident’s council?

• Does the family participate in care planning?

• What is the cost of all services? Services such as laundry, salon, or transport may be added onto the fee.

• What is the payment structure for care and services?

• Are there handrails to help residents walk safely?

• Are there grab rails in the bathrooms?

• Are there places outdoors for residents to sit?

• Can residents in wheelchairs get around easily?

• Is there enough light for residents to see and feel comfortable?

• Do you see the residents’ personal items from home in the rooms?

• Is there a private location for you and your family to visit?

• Do the residents appear to enjoy being with the staff and vice versa?

• Are most of the residents dressed for the season and the time of day?

• Does the staff know the residents by name and address them properly?

• Does the staff respond quickly to call lights?

• Are there a variety of activities going on while you’re there?

• Is the food appealing?

• Are residents included in the meal planning?

• Is there a resident’s council?

• Is there a family council?

• What is the payment structure for care and services?

• Do staff and other professionals (therapists, etc.) work together to plan the residents’ care needs?

• Does the family participate in care planning?

• Is the facility certified for Medicare?

• Are there special services that are offered, such as dementia units or respiratory care units?

• Is the facility certified for Medicaid?

• What is the cost of all services? Services such as laundry, salon, or transportation may be added onto the daily fee.

• Can a “private pay” patient stay when resources run out?

**CHOOSING A LONG TERM CARE FACILITY**

Ask yourself the following questions:

• Is the outside of the facility clean and in good repair?

• Is there an odor when you enter the facility?

• Are the rooms clean and in good repair?

**Tell them you saw it in...Pathways!**
If you have questions about a particular facility or long-term care... Call the Nursing Home Ombudsman Agency. For information about a particular facility or questions regarding accessing long term care, please call (859) 277-9215 or visit www.ombuddy.org for their free booklet “Important Information - A Guide to Long Term Care for Residents and Families”.

**SENIOR HOUSING TERMS**

**Assisted Living**
These state certified facilities offer basic assistance with activities of daily living and organized social and recreational activities. Persons who wish to live as independently as possible can receive help with bathing, grooming, meal service and reminders for taking medications. Fees for care vary and may be supplemented by long-term care insurance.

**Continuing Care Retirement Communities**
Offer a continuum of services: independent living cottages or apartments, assisted living, personal care and a skilled nursing facility on-site or nearby. Some charge an entrance fee/membership fee (or an endowment) that can vary by life expectancy.

**Independent Living**
This is a broad term encompassing many types of housing options including independent living within a congregate housing setting. Independent Living means that a person is able to maintain his or her own living area and attend to personal care needs.

**Long Term Care**
Twenty-four hour medical care is provided for those who need skilled or intermediate nursing care. Cost of care may be covered by Private Pay, Long-Term Care Insurance or Medicaid.

**Memory Care**
Specialized care and programming for those with Alzheimer’s disease or other memory care disorders.

**Personal Care**
These state licensed facilities provide care for the person who needs assistance with personal hygiene and other activities of daily living. They also have organized social and recreational activities. Medicines can be dispensed by staff, which is prohibited in assisted living facilities.

**Rent-Subsidized Housing**
These independent living subsidized apartment complexes are generally for those 62 and older who are able to live on their own, even if handicapped or disabled. Each facility has its own eligibility requirements, and many have waiting lists.

**Respite**
Temporary medical or non-medical services designed to offer relief to those who are caring for family members who might otherwise require permanent placement in a facility outside the home.

**Subsidized Housing**
These housing facilities are built and/or operated with public or private subsidies. In general, rent is based on income, usually no more than 30% of income.

**Phone tips for seniors:**
- Start a buddy system. You and a friend or relative can set a special time when you call each other every day. It’s an easy way to keep track of each other.
- People who live alone, especially women, can list only first and middle initials in the telephone directory to avoid calls from people making harassing calls.
- Use answering machines to keep potential burglars guessing about who’s home and who’s not. Women living alone may ask a male friend or relative to make the recording using your telephone number only.

**Stop telephone scams**
by keeping these tips in mind:
- Hang up if a telemarketer calls before 8 A.M. or after 9 P.M.
- If you suspect a scam, call the State Attorney General. If you have been the victim of a scam, call the National Fraud Information Center at:232-6330 or 1-800-876-7060.
- Resist high pressure sales. True businesses will respect the word “no.”
- If you tell the seller not to call back and he does, hang up. That’s against the law!
- Be sure to get written information before you commit to anything.

**When you’re out:**
- Make sure someone knows where you’re going and when you expect to return.
- Carry change for emergency telephone and transportation use.
- Carry a shriek alarm.
- When using a bus or public transportation, sit as near the driver as possible.

**Pathways - Information for Older Adults**

2024/25 Edition
Senior Housing Facilities by County

The following facilities are listed by county. Under each facility is a listing of the levels of care provided. The levels of care are Independent, Assisted, Personal, Skilled, Respite and Memory (which includes Alzheimer’s care).

**Housing Sponsors**

The following facilities have assisted in the printing of Pathways through their advertising support:

**Ashland Terrace**  (859) 266-2581
475 South Ashland Avenue, Lexington 40502
www.ashlandterrace.org
Ashland Terrace is a non-profit, independent living for women over age sixty. Meals, transportation, housekeeping, linens and a variety of activities/outings provided. Rent is privately subsidized based on monthly income.
Levels of care: Independent.

**Bridgepointe at Ashgrove Woods**  (859) 885-3000
5220 Grey Oak Lane, Nicholasville 40356
www.BridgepointeAssistedCare.com
Located in Bannon Crossing, Bridgepointe at Ashgrove Woods is a Christian Care Community offering assisted senior care, memory care and adult day services featuring the Best Friends Approach™.
Levels of care: Independent, Assisted, Personal, Memory.

**Daisy Hill Senior Living Community**  (859) 753-2000
1001 Crossfield Drive, Versailles 40383
www.daisyhillseniorliving.com
Levels of care: Independent, Assisted, Personal, Respite, Memory.

**The Homepage at Midway**  (859) 846-4663
101 Sexton Way, Midway 40347
www.TheHomepageAtMidway.com
Levels of care: Assisted, Memory, Skilled.

**Liberty Ridge Senior Living Community**  (859) 543-9449
701 Liberty Ridge Lane, Lexington 40509
www.libertyridge.com
Liberty Ridge is a non-profit, faith-based (people of all faiths warmly welcome), family-oriented community situated in a park-like setting on 30+ acres of bluegrass, just minutes from Hamburg Shopping Center and I-75. Shopping, restaurants, medical facilities, and hospitals all within a 5-10-minute drive. Liberty Ridge offers a variety of lifestyle options to suit your needs and desires, including Assisted Living apartments, quarter person-centered Memory Care Neighborhood, and Independent Living Garden Homes. Assistance with activities of daily living is available when/if needed.
Levels of care: Independent, Assisted, Memory.

Located on 30 rolling acres in the heart of Kentucky bluegrass country, Liberty Ridge is a place you'll be proud to call home. We offer a variety of lifestyle options to suit your needs and life enrichment activities that engage and entertain our residents, as well as encourage strong bonds between neighbors.

**Mayfair Village**  (859) 266-2129
3310 Tates Creek Road, Lexington 40502
www.mayfairseniors.com
Levels of care: Independent, Personal.

**Meadowthorpe Assisted Living & Memory Care**  (859) 878-1300
191 Leestown Center Way, Lexington 40511
www.meadowthorpe.com
Levels of care: Assisted, Memory, Respite

The following is a county-by-county listing of facilities.

(Continued on Page 96)

**Caregiver Tip**

Moving a loved one into a nursing home is an act of love, not a denial of duty. Many older adults who have lived in isolation for a long time find new friends and new experiences to keep connected with life once they become residents. Additionally, the very frail often significantly improve with regular medical care and a healthy nutrition program.
**ANDERSON COUNTY**

Christian Care of Lancaster  
(859) 792-6844  
308 West Maple Avenue, Lancaster 40444  
www.ccphilancer.com  
Levels of care: Skilled, Respite.

Heritage Hall Health & Rehabilitation  
(502) 839-7246  
331 South Main Street, Lawrenceburg 40342  
www.seniorcare-corp.com  
Levels of care: Personal, Skilled, Respite.

Hometown Manor of Lawrenceburg  
(502) 859-3025  
101 Hawkins Street, Lawrenceburg 40342  
www.hometownmanor.com  
Levels of care: Assisted.

**BOURBON COUNTY**

Bourbon Hts. Nursing Home  
(859) 987-5750  
2000 South Main St., Paris 40361  
Levels of care: Ind., Personal, Skilled, Respite, Memory.

**BOYLE COUNTY**

Charleston Assisted Living  
(859) 236-9292  
203 Bruce Court, Danville 40442  
www.charlestonehealthcarecenter.net  
Levels of care: Assisted.

Danville Center for Health & Rehab  
(859) 236-3972  
642 North 3rd Street, Danville 40442  
Levels of care: Skilled, Respite, Memory.

Ephraim McDowell Regional Medical Center  
Transitional Care Unit  
(859) 239-1000  
217 South 3rd Street, Danville 40442  
www.emhealth.org  
Levels of care: Skilled.

Hall & Preston Family Care Home  
(859) 854-6307  
122 East Shelby, Junction City 40440  
Levels of care: Personal.

Henson Family Care Home  
(859) 854-6295  
215 Grafton St. (P.O. Box 219), Junction City 40440  
Levels of care: Personal.

McDowell Place  
of Danville  
(859) 239-4663 or 1-877-402-4663  
1181 Ben Ali Drive, Danville 40442

Pine Meadows Health Care  
1608 Hill Rise Drive, Lexington 40504  
Levels of care: Skilled.

(859) 254-2402

---

CAREGIVER TIP

Some nursing home residents have frail bodies but very alert minds. Other residents may not be able to process numbers to play bingo, but enjoy trips out to a park, or to see holiday decorations. Study the activities schedule to make sure your loved one will have access to the types of activities he or she will enjoy and look forward to each day.

Home Improvements & Modifications

Accessibility Work...Includes home modifications such as handrails, guardrails, bathroom grab bars, wheelchair ramps to enable an older or disabled person to live safely at home.

Chore Services...Cleaning beyond normal homemaking. It includes heavy duty tasks such as floor or window washing, yard work and pest control and other types of home maintenance.

Retrofitting...Retrofitting a home is to modify it to include new items or improvements that enhance safety and lifestyle. Examples would be appliances that automatically shut off, installation of grab bars or shower seat, large size clock and home elevator or chair lift.

2024/25 Edition
Nursing facilities are not necessarily the "last step" for patients... If someone requires constant supervision or there is no one to provide care at home, nursing facilities can provide rehabilitation care, long term care, or maybe temporary respite care. There are assisted living facility alternatives to nursing facility care. There are also home- and community-based alternatives, such as Medicaid waiver programs. A person does not necessarily need to move into a nursing facility simply because he or she is having health problems or can’t manage to live independently at home. Options depend upon the duration and type of services required as well as the level of care that one can afford.

The majority of nursing facilities are owned and operated by for-profit corporations. Some facilities are operated by a governmental unit, such as the county or state; a philanthropic or non-profit organization, such as a church or religious organization; or by families. Philanthropic nursing facilities are not necessarily less expensive than for-profit nursing facilities. Many facilities have waiting lists.

Family members may feel frustrated or guilty about not being able to personally care for a parent or other close older adult. Nursing facility social workers, other health care professionals, religious leaders, and the Long Term Care Ombudsman can provide helpful perspectives.

**If Nursing Home Placement is the Appropriate Option...** To make the transition most effectively, a prospective resident, the family, and physician must be involved in the decision-making process.

- Encourage as much independent decision-making as possible by the prospective resident.
- Move as many personal effects as possible into the room to foster familiarity and comfort.
- Assure the person that a family member is always reachable by phone.

**GRIEVANCE RESOURCES**

Nursing Home Ombudsman Agency of the Bluegrass  
1530 Nicholasville Rd., Lexington 40503  
(859) 277-9215  
www.ombuddy.org

Independent agency looking after the interests of long term care residents, with advocates assigned to each nursing home in the 17-county area. Office has information available at no cost, covering a wide range of subjects—from evaluating a nursing facility to getting good care once you are admitted. Call for placement counseling or information on any topic related to care in nursing, personal care, and family care homes.

**FINANCIAL AND LEGAL PRE-PLANNING**

There are many complex financial and legal decisions to be made for nursing home placement, and pre-planning is critical. Annual nursing home costs average $70,000. Families usually begin paying for nursing home care from savings. Medicare coverage of nursing home care is extremely limited. Most people deplete their savings and rely on government-funded Medicaid to supplement their monthly income and help cover the costs.

**Requirements for Medicaid Coverage**

- A resident's total gross monthly income from any and all sources must be less than the monthly Medicaid reimbursement amount to the nursing home.
- A resident's countable assets cannot exceed $2,000.
- A spouse living in the community may keep the couple's home; other assets can be kept but the monetary amount can change from year to year.

Some nursing homes do not provide care for residents who rely on Medicaid. Many that do, have limitations on the number of Medicaid beds they provide and, therefore, have waiting lists.

**QUESTIONS TO ASK**

- Is the facility Medicare/Medicaid certified?
- What personal items may be retained to provide a satisfactory level of familiarity and comfort?
- Are Medicaid beds available? If not, how long is the waiting period?
- Are location and visiting times convenient for family and friends?
- Does the facility provide the skilled services you need?
- How are the costs calculated, including single vs. double occupancy, laundry, therapy, activities, special diets, medical supplies, telephone and television?
- Can roommates be changed easily if requested?
- Does the facility have planned group activities such as bingo, pet therapy, outside trips, celebrations, etc.?  
- What happens if your money runs out and you rely on Medicaid for payment?
- Are residents mostly well groomed and out of bed?
What is your first impression about the odor, cleanliness, decor and atmosphere?

Do residents appear to enjoy the staff and do staff members know the residents by name?

Is staff responsive to your and your loved one’s requests?

Is the philosophical or religious orientation of the facility compatible with yours?

What is the number of staff compared to the number of patients?

**TYPES OF LONG TERM CARE FACILITIES**

**Nursing Home, Skilled Nursing Facility or Health Care Center**
A 24-hour nursing care and rehabilitation center that meets federal regulations for Medicare and/or Medicaid. Care is supervised by a nurse under the direction of a physician medical director. Includes pharmaceutical, dietary and activities services. All reports are available for public inspection. Reports list deficiencies or corrections.

**Certified Nursing Facility**
Meets federal laws and regulations for Medicare and/or Medicaid (skilled nursing). All certification reports must be available for public inspection. Reports will list any deficiencies or corrections needed.

**Sub-acute Care**
Is when a patient requires extensive nursing but not direct physician care. Patients do not need the full range of hospital services but do need between four to seven hours of skilled nursing care and/or additional therapy services. Emphasis is on rehabilitation and stays typically do not last beyond a few months.

**MEDICAID COVERAGE**
Applicable in Medicaid certified nursing facilities. Pays if local Human Services dept. decides nursing care is medically necessary and eligibility requirements are met.

**Medicaid Will Pay:** (Providers must be Medicaid certified.)
- Semi-private room, meals and diets prescribed by doctor.
- Skilled nursing.
- Drugs and medical supplies
- Some transport to and from hospital and nursing home.
- Hydraulic lifts.
- Physician ordered “restorative” services such as physical, occupational, and speech therapy and diagnostic evaluations.
- To hold a bed for 14 days for therapeutic visits or hospital stays. On the 15th day, patient must pay to hold bed or go back on the Medicaid waiting list.

**Medicaid Will Not Pay for:**
- Personal comfort or convenience items, unless medically necessary and ordered by the doctor.
- Private duty nursing.
- Non-essential or experimental services.
- Beauty/barber shop services.
- Home care or custodial care.
- Continued stay in a facility if the resident’s level of care does not match the facility’s certification level (if alternate placement available).
- Dry cleaning.
- Transportation costs to visit families and friends.

Medicare Helps Pay for: (Providers must be Medicare certified.)
- Bed in semi-private room (two-four beds per room) and all meals including special diets.
- Necessary nursing services.
- Drugs, medical supplies, appliances and equipment (wheelchairs, crutches and braces).
- Medical social services.
- Doctor’s services (if you have Part B coverage).

Medicare Does Not Help Pay for:
- Personal comfort or convenience items such as charges for phone, radio or television furnished at patient’s request.
- Private duty nursing.
- Extra charges for use of a private room, unless patient needs it for medical reasons and ordered by a doctor.
- Doctor’s services (unless you have Part B coverage).
- Ambulance transfers for routine medical care or lack of other transportation.
- Transport for a patient legally pronounced dead prior to ambulance call.
